

LIVING OUR MISSION

A is a young man who loves to be involved in the community. Whether it is volunteering or through various activities, he is passionate and always engaged in some way or another. A is very specific in crafting his life goals and with the help of his support team, he puts in the effort to achieve them.

Recently, A has expressed that he would like to become a volunteer firefighter and with the help of his amazing staff he was able to take the first step in achieving this goal - visit one of Guelph's fire stations!

"One of my goals in the future is to work at the fire or police station. We will be going back monthly to different fire stations for visits/tours. We have been in talks with the stations about possible volunteer jobs to get me started on my goal." - A
