Rules and Conditions for Installation, Storage, Transportation, Sale, and Disposal

The device does not require any installation or permanent mounting.

The product must be stored in its packaging in heated rooms at the manufacturer's and consumer's premises at an air temperature of 5°C to 40°C and relative humidity of no more than 80%. There must be no aggressive impurities (acid or alkali vapors) in the rooms that could cause corrosion.

The device must be transported in a dry environment.

The device requires careful handling. Protect it from dust, dirt, impact, moisture, fire, etc.

The device must be implemented in accordance with local legislation.

The crossed-out wheelee bin symbol means that you must not dispose of this product with unsorted household waste. Electrical devices can contain harmful substances that may cause environmental damage or harm to your health if not disposed of correctly. Please dispose of these products separately. As the end user, you are required by law to dispose of used electrical equipment at an official recycling point. For information about local recycling points, contact your local authority, civic amenity site, or the business where you purchased this product. By disposing of electrical products at an official recycling point, you are helping ensure that equipment is recycled correctly and professionally, and our environment is protected. Whenever possible, remove any batteries before disposing of the device. Under the law, you risk penalties if you dispose of devices and batteries illegally.

INSTRUCTION

- 1 The headset can be used with PCs or laptops that have a single 3.5 mm jack.
- 2 For the best sound quality, make sure you're wearing the headset properly.
- 3 When you first connect the headset, ensure the volume is at the minimum and slowly raise it to your desired level. This will help you avoid hearing damage and protect the headset.
- 4 Even though it won't affect the warranty, take care of your headset by keeping sweat away and avoiding exposure to high temperatures.

- Here are a few important points to help extend the life of your new headset:
- 1 Do not use the headset in a humid environment (in the rain / during sports)! If moisture gets on the headset, immediately power it down and contact a service center.
 - 2 Keep your headset clean, wipe it down, and take care of it regularly! Yes, this really helps extend the life of your device.
 - 3 The warranty period is 12 months from the purchase date. If you have questions or problems after the warranty ends, contact our technical support. We'll be happy to help you resolve any issue, even after the warranty has expired.
 - 4 Please treat your headset with care. We really aimed to make the Nubi NH1 SE the best possible and invested a lot of time, effort, and resources into developing the new line. We built it as if it were for ourselves ♥

In this guide, we've described in detail all the features of the Nubi NH1 SE headset and its settings. Please read the information carefully before use!

If you have any questions or if the issue you're experiencing isn't described in the manual, please contact our technical support. We'll definitely sort it out for you!
