The developer reserves the right to make modifications and changes to features and finishes, brands, materials, building and landscape design, specifications, ceiling heights, number of floors, number of units, flooring patterns and floor plans without notification. Approximate suite sizes are computed from the outside face of exterior walls, the outside face of corridor and common walls, and the centerline of walls adjacent to other strata lots. Approximate measurements for exterior balcony space are computed from the glass screen system to the slab edges of the outside face of parapets or railings. For suites where the balcony or terrace can be partially screened off with movable glass panels to form an indoor/outdoor solarium, the approximate measurements of the indoor/outdoor solarium are computed from the outside face of exterior wall to the glass screen system.
