

## Let's talk about advanced solutions to meet your specific needs.

### > Aerosol – Steel Cans

We've been a major supplier of aerosol steel cans for decades, putting all our experience, knowledge and technology into creating trusted, safe, delivery systems for products packed as aerosols. We produce millions of aerosols every year for major brands in the personal care, household, dairy and industrial sectors.

### Safe, secure delivery

Wide range of sizes, plain and decorated

Sustainable

High speed, low cost filling processes

## > Aerosol - Aluminium Cans

Our aluminium cans offer all the major benefits of steel cans with the key added advantage of shaping options. We're able to produce quite complex shapes to aid marketing appeal and differentiation for our customers' products. Trusted, safe, precise packaging for personal care and toiletry products and home care items.

### Shaped to engage

Wide range of sizes and customised shapes

8 colour printing

Capabilities include shaped can necking

Sustainable, low cost, high speed delivery
