7M VALF MANUFACTURING & ENGINEERING CORPORATION

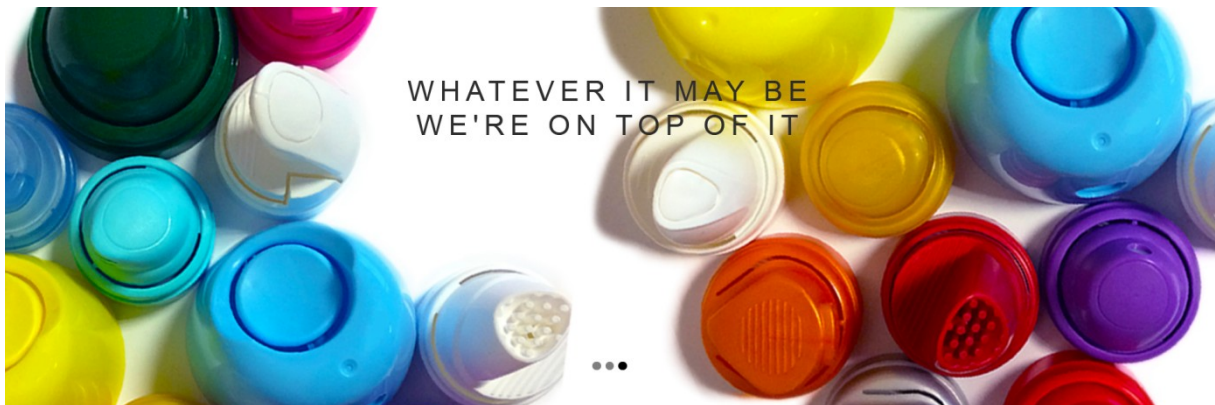

ABOUT US

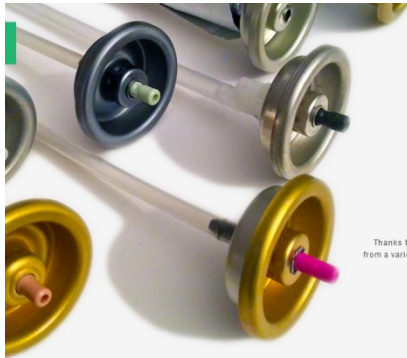

WE OFFER QUALITY VALVE PRODUCTS AT COMPETITIVE PRICES.

Since its founding in 1991, 7M Valf has supplied aerosol valves, actuators, spray pumps and their components to the world's leading production and manufacturing sectors.

Due to our long-lasting partnership with Aptar Holding, a driving force in the global spray systems market, we have successfully provided our customers with high procurement opportunities and competitive prices.

PRODUCTS

VALVES

Thanks to our rich product variety, we successfully provide aerosol valves for customers from a variety of industries that range from cosmetics to medical and automotive to cleaning.

ACTUATORS

Through our modern designs that range from small button actuators to 65 mm large spray guns, we add value to our customers' product quality and diversify their offerings.

SPRAY PUMPS

We provide our customers a rich blend of distinguished spray pump designs and systems that come in every size and dosage, and suit every product type, whether high or low in viscosity.

LOTION PUMPS

We design chic and modern first grade pumps that come in a variety of colors and are suitable for high density products such as liquid soaps, lotions and foams.
