

ELASTOMONT Ballistic Rubber Products

Self Healing Rubber Target Curtains

Benefits:

95% natural rubber curtains self-seal instantly when penetrated by a bullet. Effectively helps contains ricochet, back splatter and lead particulate, even at close range.

Safer & Cleaner:

The rubber creates separation between shooter and stray material from back splatter and ricochet. It reduces airborne lead dust when used with an effective ventilation system, the curtains contain dust in the backstop area.

Grey Backing Layer Available:

Provides UV protection for outdoor ranges
Gives a colour option for the shooter's backdrop
