

## Topic: Movies vs. Books: Which is better?

### 1. Introduction

- a. **Hook:** Did you know that only 26% of kids now read daily in their free time, compared to 43% in 2015?
- b. **Background information:** A drop in reading habits is explained by multiple factors, including technology. Yet, the movie industry tends to cause the most harm as more people choose to watch TV instead of reading.
- c. **Thesis statement:** Yet, I believe that books are still better than movies.

### 2. Body

- a. Paragraph 1
  - i. Books have more depth.
  - ii. While watching a movie or TV show, you're constantly wondering about people and events that remain behind the scenes.
  - iii. In a book, you have more details and deeper character development.
- b. Paragraph 2
  - i. Books encourage thinking and active imagination.
  - ii. While watching a movie, your brain doesn't have to make any effort.
  - iii. A book encourages you to think and create unique worlds in your imagination.

### 3. Conclusion

- a. Reading books offers you more plot and character depth, while also engaging your imagination and thinking.
- b. I believe that reading books is both more exciting and beneficial than watching movies.
