

Software Advisory Services

Optimize Operational Efficiency and ROI on Technology Investments

As enterprises continue to ride the digital transformation wave, the impact and value of critical software applications cannot be understated. With software licenses and maintenance making up almost one-third of overall IT budgets, software is a key company asset. So how do you ensure you are maximizing your technology investments and ensuring efficient and compliant operations?

Connor Consulting offers software advisory services designed to help enterprises reduce IT vendor spend, optimize software licensing environments, and mitigate non-compliance risk.
