IHT Group offers the world's most energy-efficient farrowing heat mat.

Hog Hearth® heat mats represent the industry's pinnacle of safety and performance. Notably, they achieve a coveted 5VA fire (flame) rating, emphasizing their remarkable fire-resistant qualities, providing warmth and peace of mind. Adding to their efficiency, Hog Hearth® incorporates a high-density R-value insulation layer, making them the top choice for energy efficiency and animal welfare. Our products are engineered to deliver superior performance and reliability, setting the standard for agricultural heating solutions.

Specifications

Most Hog Hearth Heat Mats can be customized to your crate's needs using a Top, Back or Side Connection. MSUs can be customized with temperature probes to match your current controller system, contact us if you have any questions about compatibility.

Note: All mats will be available in 2nd Gen exclusively, unless specifically marked with the suffix (A). This indicates that only a 1st generation version of the mat is available.
