Work your way, anywhere.

How people work has changed.

The power of the
humble locker.

Work your way, anywhere.

People now work differently.

“
How am I going to get everything I need in my bag today?”

“
How am I going to carry all of this between meetings all day?”

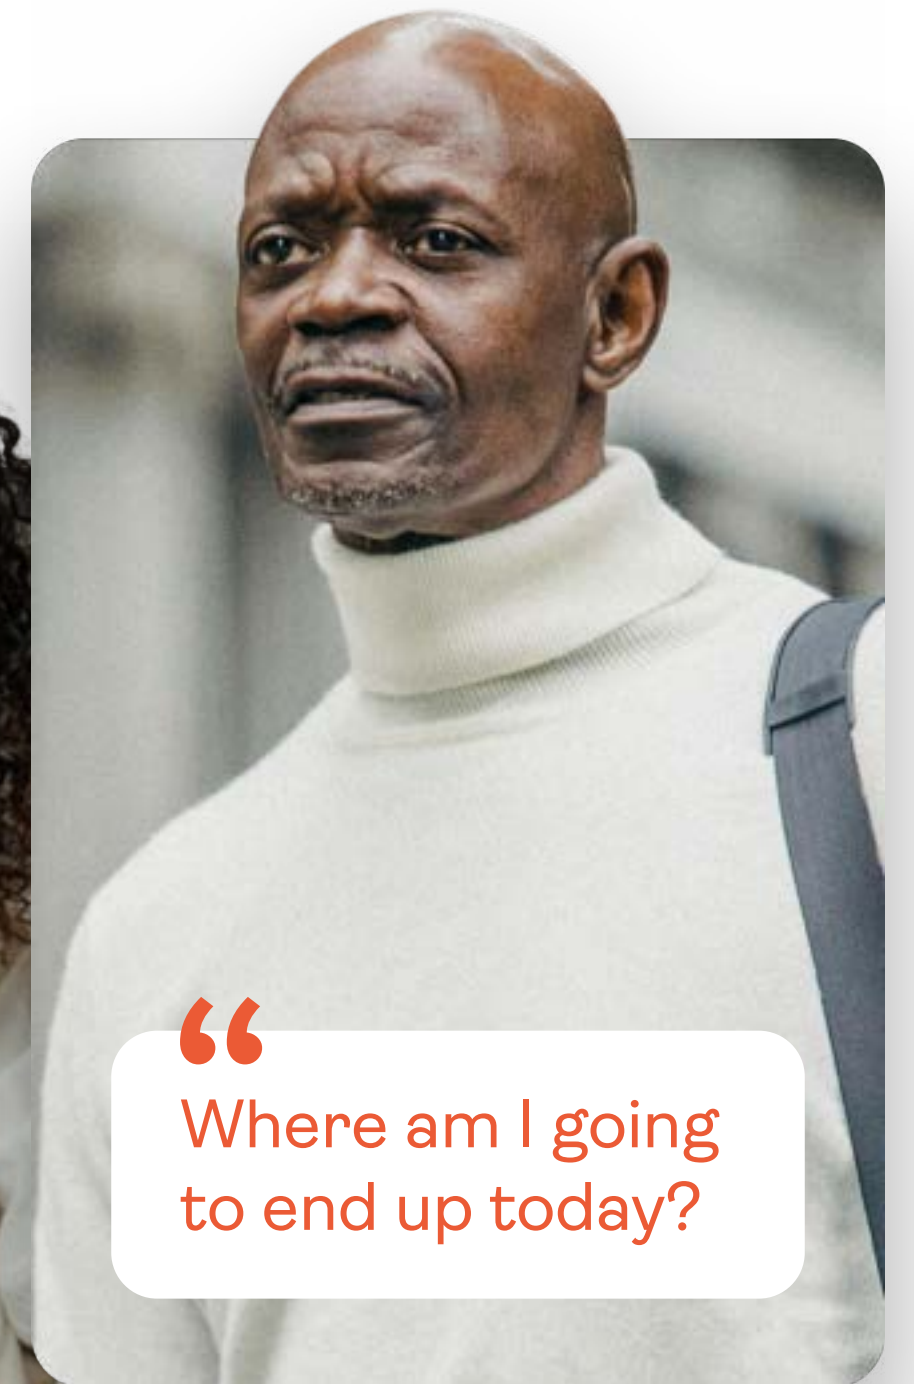

“
How am I going to carry all this while I find today's desk?”

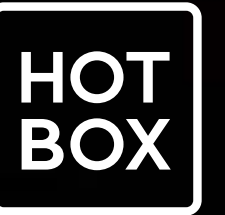

“
How can I quickly make my setup more ergonomic?”

“
Where am I going to end up today?”

Work your way, anywhere.

The BIG questions people are asking.

How do

How do people comfortably get themselves from locker to desk?

How do we keep ergonomics on point when on the move?

How do we make hotdesking efficient?

How do we keep people's desks tidy?

How do we make hybrid working and hotdesking work together?

How do we stop people dropping everything?

By giving them
the right tools.
