ALTAMONTE SPRINGS WELCOMES CAUSEWAY TECHNOLOGIES' U.S. HEADQUARTERS, ADVANCING SMART CITY LEADERSHIP

ALTAMONTE SPRINGS, Fla. (November 4, 2025) – The City of Altamonte Springs is proud to announce that United Kingdom-based Causeway Technologies has chosen our community as the site of its United States headquarters, further solidifying Altamonte Springs as a national leader in smart city innovation and public/private partnerships. The new headquarters is housed within the Altamonte Global Innovation Lab (AGIL), marking a milestone in the City's ongoing commitment to technology-driven progress and international collaboration. From this headquarters in Altamonte Springs, Causeway Technologies will expand its impact regionally and nationally.

This exciting development builds upon the City's partnership with Causeway Technologies, having launched the Causeway one.network platform in March 2024, which has transformed traffic coordination and enhanced the commuter experience across Altamonte Springs.

"We are honored that Causeway Technologies selected Altamonte Springs and the Altamonte Global Innovation Lab for their U.S. headquarters," said City Manager Frank Martz. "Our partnership underscores our shared dedication to smarter, safer communities and highlights how our City continues to attract world-class talent and groundbreaking innovation."

Through the pioneering road management Causeway one.network platform, the City and its partners can synchronize roadwork schedules, improve traffic flow and minimize disruptions. These efforts have significantly improved efficiency, enhanced public safety and strengthened regional mobility. Additionally, live data from the platform is now integrated into leading navigation apps, including Waze, Google Maps, Apple Maps and TomTom, creating a safer environment for roadway workers and real-time routing information for residents and business travelers.

"Altamonte Springs has been a perfect partner," said Edward Constancio, Vice President USA for Causeway one.network. "Together, we are equipping construction crews, emergency responders and public works teams with real-time tools that improve the daily lives of everyone on the road. We are thrilled to establish our U.S. home and collaborate closely with the City and AGIL."

About the City of Altamonte Springs

Altamonte Springs is a city born of innovation, fiscal responsibility and progressive vision. The City is completely debt free and maintains one of the lowest tax rates in Florida. City leadership, staff, residents and local businesses share a vision of making Altamonte Springs the best place in Florida to live, work, raise a family, earn a degree, seek medical care, build a business and more. Few locations in the state offer the robust services Altamonte Springs provides at such a low cost. From forward-thinking projects and proactive initiatives to an evolving business climate and environmentally-friendly projects, Altamonte Springs has set an example for other municipalities by striving to work beyond the typical constraints of local government.

The City has a perfect blend of community spirit and bustling activities that help create a wholesome environment for residents and visitors alike. Residential tree-lined streets and beautiful, natural parks reflect the charming and unique character of what locals call home. Not to mention, the City's robust events program is the most exciting in the region; all generously funded by the area's corporate sponsors. Hosting more than one million visitors each year, Altamonte Springs' programs infuse into the community a sense of excitement and entertainment, while enriching its diverse social fabric.

About Causeway one.network

Causeway one.network is on a mission to transform road operations. They empower those responsible for managing and maintaining our roads—DOTs, cities, counties and utility providers—by enabling seamless collaboration and the ability to share live, accurate information about road network disruptions with all stakeholders and the public. Causeway one.network equips public agencies, private companies and infrastructure partners with tools to plan, communicate and analyze activities affecting road users.
