## Key Features

# AMPX II Series

### When Performance Matters, Power it With AMPX II

The AMPX II series is a professional line of 2-channel rack-mount power amplifiers designed for public address systems, background music, and paging applications. Offering multiple power options and flexible output configurations, the AMPX II series ensures reliable performance across a wide range of installation environments.

### Adaptable Audio, Pro-Level Performance.

The AMPX II series offers power ratings from 2x260W to 2x500W and supports both 70V/100V and 4-16Ω speaker systems, making it versatile for various sound setups. It features RCA I/O for easy signal routing and a sleek 2U aluminum alloy design for seamless rack integration.

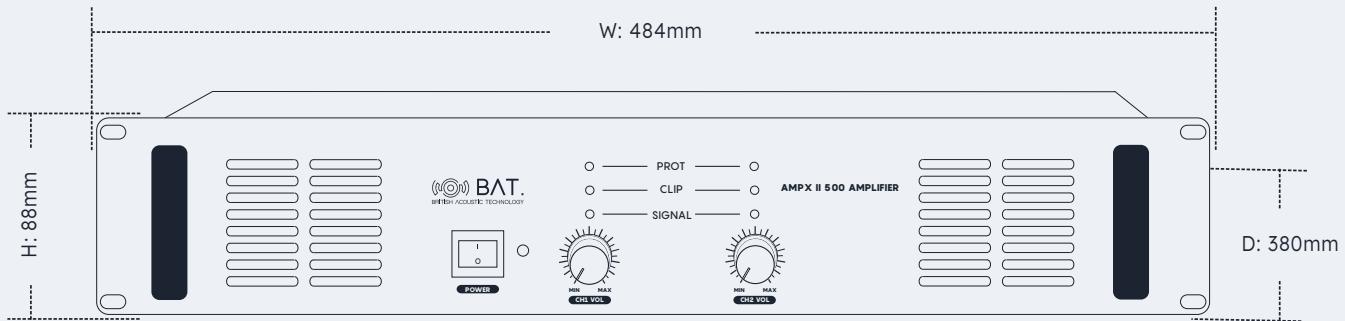

### Tough by Design. Trusted in Every Space.

Engineered with safety and durability in mind, the AMPX II series includes robust protection against short circuits, overload, over-temperature, and peak current. Whether used in commercial, educational, or hospitality settings, these amplifiers deliver dependable, high-quality audio power day in and day out.
