

A Rapid, Affordable Solution for Suspected eCommerce Data Breaches.

The ThreatView microAssessment, powered by ThreatView Advanced Edition from Turaco Labs, helps small to mid-sized eCommerce merchants quickly detect, contain, and mitigate potential breaches - offering a faster, automated, and transparent alternative to traditional investigations.

Key Benefits

- Rapid Response: Incident detection and containment possible in under 1 hour.
- Low Cost flat rate solution, including 90 days of post-incident monitoring.
- Automated & Non-Intrusive.
- Ongoing Monitoring: ThreatView provides ongoing proactive threat monitoring.
- PCI Compliance Ready: Meets PCI DSS Req's 5, 6.4.3, 11.5.2 and supports Req3 & 11.6.1.
- C-VEP Ready - web malware monitoring, file integrity monitoring, filesystem and database anti-malware.

What's Included:

- ThreatView Advanced Edition solution.
- Forensic-level threat detection & mitigation.
- \$10,000 breach protection warranty.
- 90-day Post Incident Monitoring.
- Full ThreatView access.
- Ongoing proactive protection available after microAssessment.

Comparison to Traditional AAI

| Feature | ThreatView microAssessment | Traditional AAI |
|---------------------------|----------------------------|---|
| Response Time | < 1 Hour | Days to Months |
| Transparency | Full Merchant Access | Minimal Merchant Visibility |
| Monitoring After Incident | 90 Days Included | Typically Not Included |
| Manual Effort Required | Very Low | High |
| Cost | \$895 Flat Rate | Typically 3-5 x higher cost, manual investigation |

ThreatView PCI Compliance Automation

| PCI Requirement | ThreatView Capability |
|--|--|
| PCI Req 3 - Protect Cardholder Data | Daily scans for unprotected cardholder data. |
| PCI Req 5 - Anti-Malware Solution | ThreatView provides market-leading eCommerce-specific malware detection. |
| PCI Req 6.4.3 - Script Monitoring | Real-time script & threat monitoring on Checkout Pages. |
| PCI Req 11.5.2 - File Integrity Monitoring | All files monitored and all changes logged, enabling change control, change roll-backs, threat investigation and quarantine, and |

How to Get Started

Your bank/processor will provide you with a registration link. Alternatively, please visit turacolabs.com/microassessment and click on **Merchant** then **Request a microAssesment** to receive your microAssessment registration link.

1. Complete registration and install the ThreatView agent.
2. Review findings and receive mitigation support.
3. Access real-time updates and post-incident monitoring.
4. On-boarding assistance: <https://www.turacolabs.com/mas-onboarding>
