# SAREM

## 25mm MANNED/UNMANNED TURRET

### A NEXT-GENERATION FORCE MULTIPLIER

ERAF's Saudi-made SAREM turret significantly boosts armored vehicle firepower and troop safety with a next-generation, modular design that integrates advanced weaponry, countermeasures, and electro-optics for unmatched precision. Its key strategic advantage is a weapon-agnostic architecture, supporting various NATO-standard armaments to ensure interoperability with existing inventories and enhance its global appeal. By enabling gunners to operate via advanced surveillance and remote control from a protected position, the SAREM system drastically reduces vulnerability to enemy fire while delivering superior situational awareness and combat effectiveness.

### ADVANCED FEATURES

- Shoot-on-the-move capability for stationary or moving targets
- Day and night imaging
- Automatic target tracking
- Gyro aided stabilization
- Laser Range Finder for accurate ballistics
- Computer based fire control functions
- Fired rounds counter
- Last ammunition warning
- Under armor ammunition reloading
- Capability for integration to external sensors
- Armor protection STANAG 4569 Level 2-4

### TECHNICAL DATA

#### WEAPON OPTIONS

- Primary Weapon Options
- 25mm M242 Automatic Cannon
- 25mm KBA Automatic Cannon

#### CO-AXIAL WEAPON OPTIONS

- 7.62mm FN MAG58 / M240 Machine Gun

### MOVEMENT LIMITS

- Elevation:  $-10^{\circ}$  /  $+60^{\circ}$
- Azimuth:  $n \times 360^{\circ}$  (with Slip Ring)

### AMMUNITION STOWAGE

- 25 mm: 250 rds
- 7.62 mm: 400 rds

### WEIGHT AND SIZE

- Weight:  $< 1800$  kg
- Height:  $< 850$ mm
- Width:  $< 1834$  mm
- Length:  $< 2531$  mm

ERAF reserves the rights to make specification changes without prior notice. All tolerances are within  $\pm 10$ .
