Customer Notifications

Automate, regulate and communicate customer notifications that matter most — all within RealGreen.

What is Customer Notifications?

Customer Notifications makes it easy to ensure your most important notifications are delivered by automatically sending email and SMS based on automatic triggers.

Why Do You Need It?

Keep necessary communications out of the spam box! Tightened regulations mean that marketing and transactional communications need to be sent separately. If you want to eliminate opt-outs on payment reminder emails, you need Customer Notifications.

- ✓ Separate your marketing and transactional communications to ensure deliverability
- ✓ Easily set up notifications with a user-friendly, self-serve workflow
- ✓ Automatically communicate pre-service, post-service, new sale and payment reminders via email and SMS
- ✓ Filter notifications by branch, customer type, programs and services and flag codes
- ✓ Notifications triggered automatically within integrated software
- ✓ Supports multiple branches and programs
- ✓ Embedded within RealGreen and integrated with Customer Portal for easy payments
