

RealGreen Mobile 2.0

Fast, modern and easy to use.

RealGreen Mobile gives your technicians secure, reliable and user-friendly access to the business tools they need. Here's a quick comparison of the current feature sets of RealGreen Mobile 2.0 and Mobile Live (1.0). We are continuing to work on enhancements and parity and will continue to update you on our progress!

WHAT'S NEW?

- Offline Support - Working offline? No problem with RealGreen Mobile. Your techs won't lose work when they lose signal.
- Increased Security - Built on the latest mobile framework, RealGreen Mobile offers a more reliable data synchronization process. Tighter integration with Service Assistant includes user-defined mobile access.
- Modernization - Experience next-level workflows and an easy-to-use, modern interface.
