PROFILE

Hello! My name is Mirela Mindrean, **Expert UI/UX Designer | Webflow & WordPress Developer | Graphic Designer | User-centered Design | Figma Master | Adobe Illustrator | Adobe Photoshop**, with solid knowledge in various fields (SaaS, Beauty, Fashion, Real Estate, E-commerce, Branding, Illustrator). I create designs that help grow your business.

My experience in Web Design and Graphic Design is very strong. It's not just about creating beautiful brands, but about creating brands that **generate revenue**. That's why I provide UI/UX design services with fast turnaround and excellent communication.

ABOUT ME

I am a motivated and creative person, accustomed to being productive in any situation and delivering high-quality results. I am looking for a role where I can quickly learn and actively contribute to the growth of the business. Open-minded, capable of listening, and communicating clearly while managing business priorities. I have a talent for quickly adapting to changes and a proactive attitude towards problem-solving. I am confident in my abilities and, in general, I am a relaxed and friendly person, building and maintaining productive relationships with everyone I have the pleasure to collaborate with.

OTHER

👉 Love for design

I was an engineer, but my love for design directed my steps towards web design. A love for design leading to a career in web design not only fulfills creative aspirations but also offers substantial professional and personal growth opportunities.

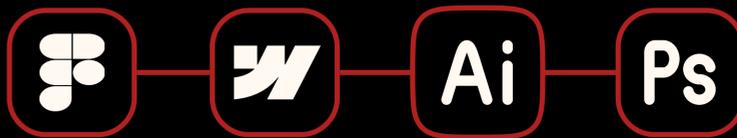

👉 Master of computers

My passion for computers had a significant impact in my role as a UI/UX Designer. Combining a passion for IT and web design involves harnessing technical expertise and creative flair to craft innovative, functional websites. This synergy enhances user experience, optimizes performance, and pushes the boundaries of digital aesthetics and interactivity.

SKILLS

EDUCATION

2024 - 2024 Webflow developer

Webcase Academy

Through my Webflow Developer Course, I gained in-depth knowledge of designing and developing fully responsive, no-code websites with precision and creativity. I mastered custom interactions, CMS integration, and best practices for building high-performing, visually stunning websites.

2023 - 2023 Graphic Design, Adobe Illustrator, Adobe Photoshop

Webcase Academy

The graphic design courses have been a journey of creative exploration, technical skill development, and design thinking. Throughout the course, I learned various design disciplines, including branding, typography, digital illustration, and user interface design. Through my portfolio, I aim to showcase my ability to create visually compelling and effective designs that meet diverse client needs and project objectives.

2022 - 2022 UI/UX Design

Webcase Academy

After completing an advanced web design course focused on Figma, I have mastered a range of skills and competencies, including:

- Advanced design techniques
- Prototyping: Ability to create high-fidelity prototypes
- Responsive design
- User interface (UI) kits
- Implementing feedback
- Advanced animation

2011 - 2014 Engineer's degree, Computer

Ioan Slavici University

Computers and Information Technology

EXPERIENCE

UI/UX Design | Webflow development | Graphic Design | Adobe Illustrator | Adobe Photoshop

Freelance

As a web designer, webflow development and graphic designer, I have created custom websites and visual materials tailored to clients' needs. My experience includes branding, UI/UX, graphic design, and conversion optimization, working with various industries such as e-commerce, SaaS, real estate, and others, always ensuring designs that are both functional and visually appealing.
