

Ho Sy Quan

UX/UI Designer

With over 4 years of experience in UI/UX, I see design as more than just creating visually appealing interfaces, it's a way to solve real problems for users. I enjoy understanding how people think, how they interact with products, and simplifying complexity to create clearer and more effective experiences.

Skills

Core skills

- Product & UI/UX Design
- Design systems
- Wireframe & Prototyping
- Interaction design
- UX Research

Additional skills

- Front-end fundamentals
- Webflow & animation logic
- AI-assisted design workflow

Educations

Google UX Design

🕒 05/2022 - 07/2022

- Google certificate about user experience design course.

Vinh University

🕒 10/2016 - 12/2020

- Specialization in Accounting.
- Bachelor of Economics.

Experiences

-  **Navio Technology Applications Co., Ltd.**
Freelance UX/UI Designer 🕒 06/2024 - 03/2026
 - Conducted competitor analysis and gathered product requirements with the Founder to define information architecture and product structure before designing UX/UI for mobile apps, web apps, and websites.
 - Collaborate with the development team to ensure front-end implementation aligns with the design language. Additionally, provide specifications and design assets to support during the development and handoff process.
 - Work with stakeholders to adjust UX/UI to ensure logical and technical fit, combined with supporting testing on staging environments to evaluate and update before official launch.
 - Build and develop the Design System, create documentation and handoff notes for the development team.
-  **DOL English Co., Ltd**
UX/UI Designer 🕒 02/2024 - 06/2024
 - UX/UI design for TOEIC and SAT online tests integrated into the LMS platform, optimizing test flow, result feedback features, and user-friendly interfaces to improve learning and test-taking experience.
 - Collaborate with teachers to design IELTS and TOEIC books for learners, ensuring clear and easy-to-read layouts with visual elements to support better understanding.
-  **HR1Vietnam Holdings Co., Ltd**
UX/UI Designer 🕒 06/2022 - 01/2024
 - Collaborate with the CTO and stakeholders to ensure the effectiveness and quality of the final product. Additionally, research competitors and continuously update on new design trends to apply and develop the company's products.
 - UX/UI design for the company's websites and internal systems such as ATS, CRM, HRM. Provided specifications, design assets,... for developers and handoff documents to ensure clear communication during product development.
 - Manage and develop the Design System to maintain consistency across all products during the design process.
-  **Mai Linh Corporation Joint Stock Company**
Product Development Specialist 🕒 06/2021 - 06/2022
 - Designed UX/UI for the MPass project including web, mobile app, and internal portal interfaces.
 - Collaborated with the product team to review and improve product workflows and user experience.
 - Conducted market and user research to identify opportunities for product improvement.
- *Strategic Management Staff* 🕒 12/2020 - 06/2021
 - Worked with the product team to research and propose UX/UI improvements for the Smartcar product.
 - Collected and analyzed feedback from drivers and customers to support product development decisions.

Products

-  **The Q-library**
A Figma design library with pre-built styles and components used by designers to accelerate UI creation. Reached 5K+ opens on Figma Community.
-  **Picker - Text Style Toolkit**
A Figma plugin that helps quickly identify text layers using the same style on a page and batch edit identical values across multiple text styles in a single action, with 500+ uses on Figma Community.
-  **Zerone library**
The Webflow style guide library helps build websites faster through a system of ready-to-use classes and variables synchronized with The Q-library on Figma.
