|----------------------|--|

For emergency responders

- | | |
|---------------------------|--|
| Protective equipment | : See Section 8 for recommended personal protective equipment. Ventilate the area and restrict access to the spill or leak zone. Have emergency procedures in place for treating exposures or incidents. Only trained and authorized personnel equipped with proper protective equipment should perform cleanup. |
| Environmental precautions | : Avoid release onto the ground, into storm sewers, or bodies of water. |

- | | |
|-------------------------|---|
| Methods for cleaning up | : Stop leak if safe to do so. Contain spillage, soak up with non-combustible absorbent material (e.g. sand, earth, diatomaceous earth, vermiculite) and collect all waste in suitable, labeled, and closed containers. Dispose according to local legislation (See Section 13). |
|-------------------------|---|

SECTION 7 Handling and storage
