

# ALL TEMP DISH DETERGENT

## Heavy Duty Dish Machine Detergent

**All Temp Dish Detergent** is an excellent liquid machine dishwashing detergent designed for those who want maximum efficiency and sparkling clean dishware. Manufactured with special alkaline builders, sequestrants, and buffering agents, **All Temp Dish Detergent** is effective in low or high-temperature dishwashing machines.

### Features & Benefits

- Use in both high and low temp dish machines
- Soil suspending agents
- Liquid concentrate with just the right alkalinity for economical use
- Unique blend of water conditioners and buffering agents
- Free rinsing
- Reduced foaming

#### DIRECTIONS:

For best results the injection system should be set to deliver 8-10 cc's per cycle. It should be used with water temperature of at least 120°. Adjust dosage up or down depending on water conditions and soil levels. Run test racks to check cleaning efficiency.
