A division of Bio-Botanica, Inc. · Hauppauge, New York · Since 1972

Private Label Catalog

310 ready-to-brand formulations.
Every minimum published.

We make our own botanical actives. Every formulation here starts with an extract produced in our own facility rather than bought in — which is why we can publish minimums and hold a schedule.

How to use this catalog

Every formulation below is already developed, tested and in production at our FDA-registered facility in Hauppauge, New York. You brand it. There is no development cycle and no formulation fee — the work is packaging, labelling and scheduling.

Products are grouped by what they support. Each row gives the format and fill size and the minimum order quantity for that format. Minimums are set by format and fill size, not negotiated case by case, so the number in the last column is the number.

Minimum order quantities

The catalog

PRODUCT	FORMAT & SIZE	MINIMUM ORDER
