

# Radically Efficient Modular Lighting

## CLIQ™ MODULAR LOW VOLTAGE LIGHTING SYSTEM

Designed for Rapid Installation in Large Spaces and Data Centers.

CLIQ™ is capable of various light distribution patterns as shown in these photometric studies, ensuring the best possible lighting configurations that are functional and meet the needs of all large spaces. Additional custom configurations are available to conform with specific requirements.

Operating at 48V Class 2 low voltage, CLIQ is designed for tool-less\*, quick connection to popular strut channel systems using a patented **CLIQ and Go** system. CLIQ can be installed with or without available decorative fascia.

*\*Strut channel applications.*
