

A smarter drip system.

Easy monitoring and control for every drip zone

Smart Valve

Netafim Drip Tube & Connection Kit

Irrigreen App

Your plants will thank you.

Real-time intelligence for gardens, shrubs, trees, and more

Powered by Smart Valve.

The technology behind smarter drip

Power + data cable

Weatherproof cables to power and control Smart Valve

Runaway watering prevention

Detect abnormal flow events before they waste water

High-performance materials

Built for harsh environments.

Error reporting

Built in intelligence to detect errors

1 motor

Controls valve opening, flow rate, and pressure

Pressure optimization

Dynamically adjusts pressure for better water delivery

Set it and forget it.

Weather-Aware automation

Smart scheduling helps keep your plants healthy and happy

Morning Skipped

Now

Morning skipped on your Irrigreen system due to the soil having enough moisture.

IG Smart Valve - Drip

SCHEDULES

Most Mornings

Runs every 3 days starting at 6:00am.
Ends around 7:35am.

1 ZONE

AUTO WATER

Early Saturday

Runs every 7 days starting at 5:30am.

What's in the box.

Everything you need

Real-time intelligence for every drip zone

Leak detection.

Get alerted when a drip line rupture or emitter failure occurs

Clog detection.

Know when blocked emitters prevent proper watering

Pressure optimization.

Smart Valve dynamically adjusts pressure for better water delivery

Runaway Watering Prevention.

Detect abnormal flow events before they waste water.

Weather-Aware Automation.

Automatically adjust watering based on plant needs and environmental conditions

One App for Everything.

Manage lawn and non-turf zones together in the Irrigreen App
