PERGOLAS MADE **PERSONAL**

SHADESPAN

ABOUT.

At ShadeSpan, we are proud to be a second-generation family-owned business with deep roots in manufacturing. Headquartered in the UK, our journey began with a commitment to quality, innovation, and customer satisfaction, values that have remained at the heart of our company ever since. Over the years, our dedication to delivering exceptional shade solutions has allowed us to grow from a local manufacturer into a global leader in pergola, cabana, pool cover, and carport systems.

Our story started with a small, passionate team, driven by the desire to create products that combine durability, style, and functionality. As we gained recognition for our superior craftsmanship and attention to detail, demand for our products increased, and we began expanding our operations. With a firm foundation in the UK, we seized the opportunity to broaden our horizons, opening manufacturing facilities in Miami to serve the growing market in the United States.

Today, we have offices and operations across the globe, enabling us to handle projects anywhere, anytime. Our international presence allows us to stay close to our customers and understand the unique needs of different regions, ensuring that we can provide tailored solutions no matter the location. Despite our growth, we remain true to our family-owned heritage, maintaining a personal touch and a strong commitment to the values that have guided us from the beginning.

DESIGN.

At ShadeSpan, we are more than just manufacturers; we are innovators who continuously push the boundaries of design and technology. Our integrated approach, with in-house production and rigorous quality control, ensures that every product we deliver meets the highest standards. Whether it's a bespoke pergola for a residential backyard or a large-scale project for a commercial space, our expertise and dedication shine through in every detail.

As we look to the future, our mission remains clear: to provide our customers with the best shade solutions, combining cutting-edge technology, sustainable practices, and unparalleled customer service. We are excited to continue our journey, expanding further into new markets and bringing our world-class products to more people around the world.

Thank you for being part of the ShadeSpan family. We look forward to helping you transform your outdoor spaces with our innovative and reliable shade solutions.

Our modern pergola frames are designed for longevity, weather resistance, and minimal maintenance. They offer a sleek, contemporary design with clean lines. Stability, ease of installation, and compatibility with add-ons like power pole, weather proof TV, fixed/sliding glass wall, slat walls or blinds and heaters available to enhance your pergola even more.

Standard sizes: Available in 3m & 4m configurations to fit your space.

Colour options: Anthracite gray, black & white

Material: Aluminium (T6063-grade)

FIXED GLASS WALLS

Elevate your pergola with our stunning fixed glass wall, available in 3m and 4m sizes. This stylish addition offers panoramic views while providing protection from wind and weather.

Crafted from durable, high-quality glass, it enhances natural light and creates a bright, inviting space. Ideal for enjoying your outdoor area year-round!

GLASS SLIDING WALL

Enhance your outdoor area with our elegant glass sliding wall, available in 3m and 4m sizes. This stylish solution provides unobstructed views while protecting against the elements.

Featuring a smooth sliding mechanism and durable construction, it ensures effortless access and comfort year-round. Elevate your pergola with a touch of modern sophistication!

SLAT WALLS

Enhance your outdoor space with our stylish aluminium slat wall, available in 3m and 4m sizes. Crafted from durable, weather-resistant aluminium, it offers a modern aesthetic while providing privacy and shade.

The slats allow for ventilation, ensuring a comfortable environment. With low maintenance and various colour options, this slat wall is the perfect addition to elevate your pergola experience.

ADJUSTABLE BLINDS

Transform your pergola with our versatile adjustable blinds, available in 3m and 4m sizes. Designed for seamless operation and weather resistance, these blinds provide effective UV protection while maintaining visibility.

Choose from a variety of colors to enhance your outdoor aesthetic. Enjoy comfort and style with easy installation and low maintenance!

POWER POLE

Transform your outdoor spaces into entertainment hubs. Integrating our media wall seamlessly, enhances the functionality and ambiance of your pergola.

They can provide a stylish focal point for gatherings, movie nights, or relaxing, blending modern design with practicality for a luxurious outdoor living experience.

HEATERS

Stay warm and comfortable in your outdoor space with our wall-mounted heater, designed for pergolas.

Featuring a sleek anthracite grey finish, this powerful 230V, 1500W heater is remote-controlled for easy adjustments. With an IPX5 rating, it's built to withstand the elements, making it perfect for year-round use.

FAQ.

What are Pergolas used for?

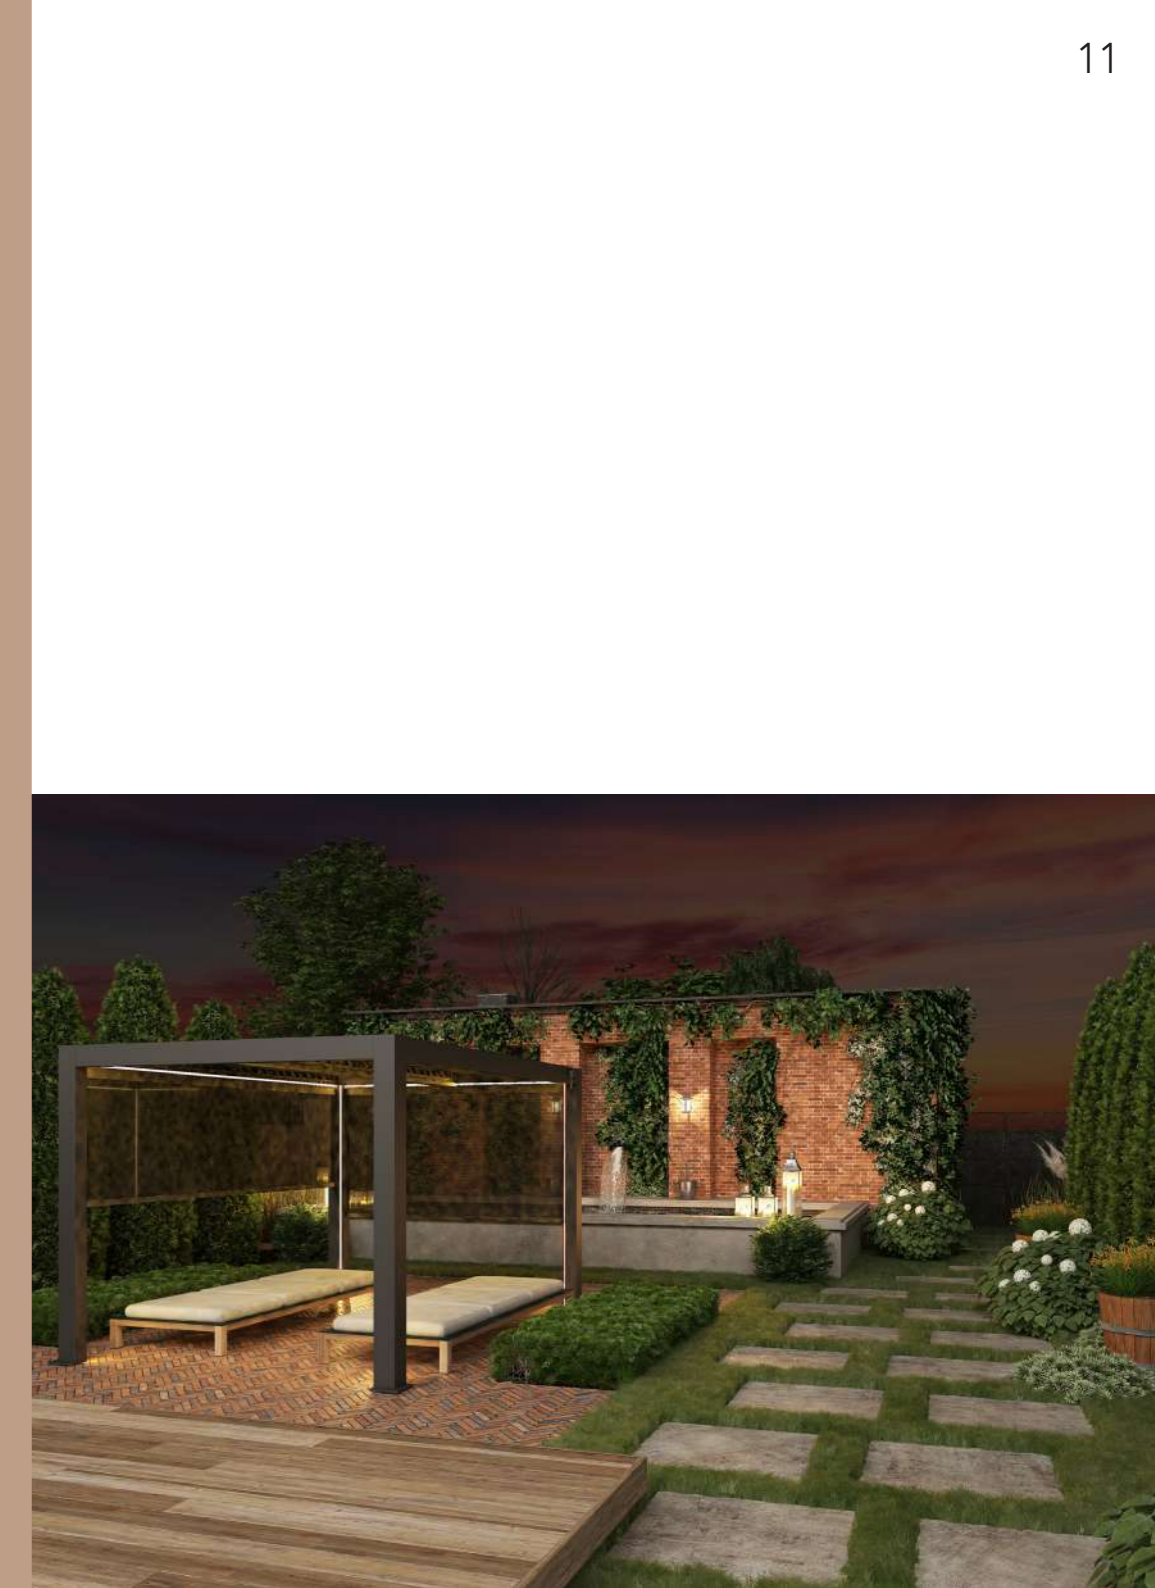

Our aluminium pergolas have many uses, one of the main uses is for shelter and shade from the elements. Pergolas are primarily used for:

- Entertainment
- A place to relax
- Get-togethers, parties & barbeques
- Fun & leisure time for kids to play
- Firepits & hot-tub enclosures
- Dining and eating outdoors
- Enjoying the night sky
- Outdoor kitchen

Are Pergolas worthwhile?

The short answer is yes. Pergolas are a fantastic investment. Generally, planning permission isn't required (check with your local authority if you live in a conservation area or a listed building).

Once installed, our aluminium pergolas can easily be maintained along with the variety of screens making them future proof. It also adds value to your home.

FINISHES.

The HABITAT Pergola combines sleek design, premium materials, and smart technology to create the perfect outdoor space. Chamfered posts and intelligent floor mounting ensure a modern, seamless look with exceptional stability.

Crafted from T6063-grade aluminium with a weather-resistant powder coating, it offers unmatched durability and a flawless finish. Precision engineering guarantees strength and longevity in any climate. With customisable ambient lighting and optional media features, the Habitat Pergola adapts to your lifestyle—whether for relaxation or entertainment—delivering the ultimate outdoor experience.
