E-LITE LIGHTING SYSTEM

ELITE ALUMINUM CORPORATION

PROUDLY MADE IN AMERICA

Illuminate your spaces with the E-Lite Lighting System, seamlessly integrated into your Elite roof structure. Designed to blend aesthetics and functionality, the system enhances any application, from patios to sunrooms.

Energy Efficient
LED technology reduces energy consumption while delivering bright, consistent lighting.

Cost Savings
Lower energy bills due to reduced power consumption and minimal maintenance requirements over the lifespan of the system.

Customizable Layout
Flexible placement options ensure optimal illumination for any design.

Weatherproof Design
Built to withstand outdoor conditions without compromising performance.

Easy Integration
Pre-engineered compatibility with Elite Panel-Lock Systems simplifies installation.

SPECIFICATIONS

Cover Diameter	3 inches
Voltage	12V DC
Lifespan	25,000+ hours
Power	10 Watts LED
Color Temperature	3000K (warm white) or 5000K (cool white)
Beam Angel	90
Dimmable	YES
Warranty	2-year limited warranty

INSTALLATION

1. Core drill 2- 5/811 hole through fan beam.
2. Attach wires to electrical source.
3. Slide light into hole and the patented wedge design snaps light into place.
