*\*For 16' and 18' there will be a splice in the extender.*

Verticals are miter cut with 3" extra length for concrete angle to be cut in the field. Header is miter cut on one end only, leaving the other end long enough to be cut in the field. Actual clad size is 4-1/2" & 6-1/2" respectively. Clad will not cover complete trimmer.

**CUT DOWN DOOR HEIGHT**

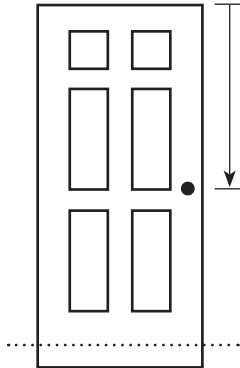

**Available for Fiberglass and Select Steel Doors**

Please allow a 3-day lead time for cut-down units.

*\* Custom size doors are available by special order, please call for pricing and availability.*

Maximum door cut down heights vary by style, please contact Customer Service for further details.

	list
Cut Down Door & Frame	\$300.00
Cut Down Door	\$200.00
Cut Down Frame	\$100.00

**NOTES:**

- Cut Downs will always be made off the bottom of the door.
- Bore location on steel edge doors with single bore will default to deadbolt location.
- Units with single & deadbolt prep will result in lowered bore locations.
- Bore locations on all fiberglass & wood doors will be centered at 33-1/8".
- Steel & Fiberglass doors will have a lowered hinge and bore location due to the placement of the lock block within the door.
- **This excludes all Stock Pre-Finish White Fiberglass, Steel & Perspective (PMGX-BGB1E5) Door Slabs.**

## SET-UP EXTERIOR PRIMED FRAME

Price includes 4-9/16" primed exterior frame with compression weatherstrip, high performance adjustable sill, ball bearing hinges, & applied brickmould.
