**Coordinating House-to-Garage fire rated doors available, please call for quote.**

**Borrowed lites and transoms are available, please call for quote and lead times.**

## Door Handing:

**Nomenclature** The below diagram indicates how to determine the correct letter/number combination for the door you are interested in pricing. Follow steps 1-3 to compile the sku for your door.

1. The first letter references the door **Series**.

Panel = **P**

2. The second letter(s) references the door **Species**.

Clear Pine = P

Fir = F

Maple = M

Knotty Alder = AK

Knotty Pine = PK

Primed Stile & Rail = PR

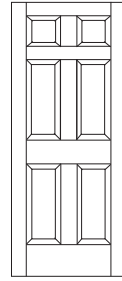

Oak = **K**

Poplar = PO

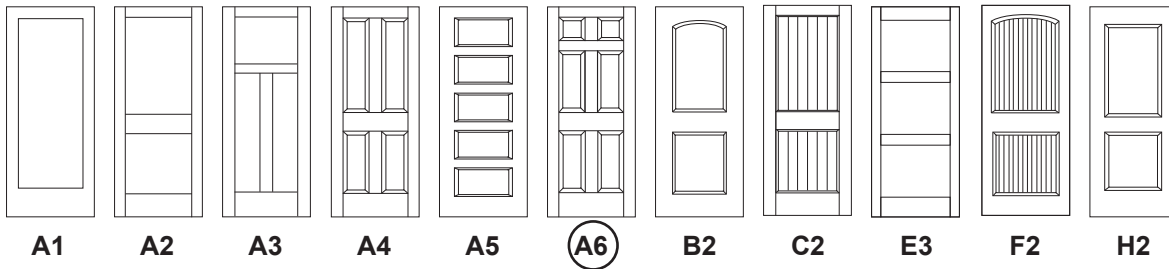

White Oak = WK

3. The third letter(s) references the door **Layout** style.

Example:

**PKA6**

Flat Panel Profile

Raised Double Hip Panel Profile

Raised Panel Profile

Plank V-Groove Panel Profile

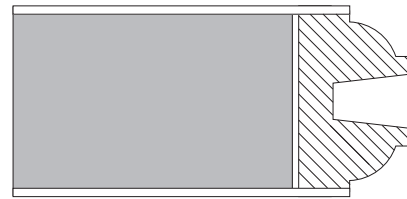

## Sticking Profiles for Wood and Primed MDF Doors

“Sticking” is a profile machined into the edges of stiles and rails, providing character & definition to the door.

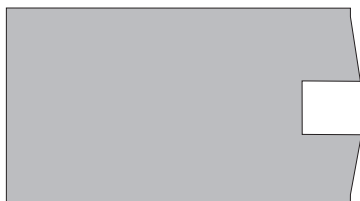

*\*Sticking images are examples of the sticking styles we use within our door offering, a slight variance is possible.*

**Pre-Hung Door Configuration:** 1-3/8" doors pre-hung in a frame consisting of 4-9/16" veneer jamb with stop applied, no casing, 3 ball bearing hinges (Satin Brass if not specified) and drive in latch prep.

**Maple Pre-Finish Recommendations**

**•For Field Finish situations, clear coat ONLY is recommended due to the species' natural characteristics that lead to inconsistent and blotchy appearance results. Field finishing results on maple are the sole responsibility of the finisher.**

**•For BBW Pre-finish situations, only clear coat or Premium Process finishes will be offered. Our Premium Process helps to minimize (not eliminate) the inconsistencies for which maple is known.**
