

4 Steps to Set Up a Compost Program

for Your Condominium or Apartment Complex

1

GET THE GREEN LIGHT

Confirm that your HOA board or property owner is open to exploring a shared composting program.

2

CONFIRM RESIDENT INTEREST

How many people will use the service? Gauge the level of interest and participation among residents. Then, **request a quote from Black Earth.**

3

FORM THE TEAM

Form a dedicated team to create a clear plan for managing and educating residents to prevent contamination.

4

FINALIZE BIN LOCATION & BILLING PLAN

Choose an efficient, central location for the bins and determine how the program will be funded.

Once these steps are fulfilled, Black Earth will be delighted to work with you!
