

NAKA: The Middle Layer that Makes Web3 Payments Work in the Real World

Traditional Finance World (FIAT Realm)

Banks & Licenses

Everything runs on compliance, licenses, fiat settlements

Slow Infrastructure

Expensive, slow, bank-dependent, not crypto-native

Limited Access

Many modern businesses can't run payments through banks.

Distributor World (Your Business)

Turnkey Payments Layer

Launch a branded stablecoin card without touching regulation or middleman

Instant Global Reach

Stablecoins can be used for payments across the Visa network (over 150M locations)

New Revenue & Retention

Earn from card activity, loyalty programs, and DeFi value-adds
