## HISTORY OF SPECTRA GUTTER SYSTEMS

Founded in St. Petersburg, FL in 1978, we are celebrating decades of leadership and innovation in the aluminum rainware manufacturing and wholesale distribution industry.

Spectra Gutter Systems moved to Atlanta, Georgia in 1992, and transformed our manufacturing and distribution from a small regional supplier into the premier manufacturer and distributor of rainware products in North America.

Today, Spectra Gutter Systems has 38+ regional locations to service our customers' needs and support their business. We are the fastest growing, most aggressive company in an established and stable industry.

With customers throughout the United States, we are the market leader in the aluminum rainware industry.

03020_	8" Gutter Coil - .030 × 20"	.030 × 20"

### PRODUCT FEATURES

 Aluminum coil is painted over a full clear coat painted lacquer to reduce corrosion.

 Aluminum is a recyclable material, making it an eco-friendly choice for those homeowners who prioritize sustainability.

 Roll coated paint process with a baked enamel finish.

 Aluminum gutters are light, which makes them easier and safer to install.

STEEL COIL

PRODUCT DESCRIPTION

Galvalume steel is carbon steel coated with an alloy that combines the impervious properties of aluminum with the malleability and galvanic protection of zinc. The alloy coating gives Galvalume steel coil a smooth, plain finish.

MATERIALS

Galvalume

QUANTITY

Sold by the pound (LB)

PART CODE	PRODUCT NAME	AVAILABLE SIZES
2411GALVALUME	5" Steel Coil - 24 Gauge x 11.75"	24 Gauge x 11.75"
2415GALVALUME	6" Steel Coil - 24 Gauge x 15"	24 Gauge x 15"
2611GALVALUME	5" Steel Coil - 26 Gauge x 11.75"	26 Gauge x 11.75"
2615GALVALUME	6" Steel Coil - 26 Gauge x 15"	26 Gauge x 15"

PRODUCT FEATURES

- Corrosion resistant.
  - Made of steel, and have a coating on them that is a mix of 45% zinc and 55% aluminum.
- Galvalume gutters are very reflective, meaning that they do not absorb heat like other metal gutters do.

## TRIM COIL

### PRODUCT DESCRIPTION

**PVC 24" x 50" Trim Coil** - Coated with poly vinyl chloride paint, the textured PVC trim coil lays flat, cuts clean, and is easy to install.

**Double-Sided Colors 24" x 50" Trim Coil (.019)** - Trim coil can be used to create decorative trim accents and other design elements for your home's exterior. Can be matched or used to complement home's existing windows and siding.

**Gold Series 24" x 50" Trim Coil (.019)** - Scratch resistant and has two-coat process with Plastilure, the Gold Series Trim Coil has superior color retention and resists weathering.

**Rough Cedar Embossed** - Trim coil can be used to create decorative trim accents and other design elements for your home's exterior. It can be matched or be used to complement the home's existing windows and siding. When using it around windows and siding, it can help provide a low maintenance exterior to your home.

**Poly 24" x 50" Trim Coil (.019)** - Coated with thermo polyester paint, the Smooth Poly Trim Coil is a beautiful and economical trim option.

END CAPS

PRODUCT DESCRIPTION

Stamped coil for each gutter end that seals the trough and channels water to outlet & downpipe

INSTALLATION

Place endcap over end of gutter. Crimp in at least 3 places, along back, bottom and front. Seal border completely on the inside with the appropriate sealant of choice.

QUANTITY

50 per box

COLORS

- 5" & 6" - Available in all standard gutter colors, copper & Galvalume
- 7" & 8" - Limited availability and some colors may be special order

PART CODE	PRODUCT NAME	AVAILABLE SIZES
_ENR	Right End Cap	5", 6", 7" & 8"
_ENL	Left End Cap	5", 6", 7" & 8"

PRODUCT FEATURES

- A loose friction that requires crimping and sealing for permanent seal.
- Ease of installation.
- Color matched to gutter system.
- Deeper and more defined cavity that fits over gutter for better crimping and seal.

## MITERS

### PRODUCT DESCRIPTION

A joint between two pieces of gutter, usually at a 90° angle

### INSTALLATION

Place gutter into miter. Join with color coordinated zip screws or rivets

Seal all seams. Use approximately 1 oz. per seam/ 3/8" wide bead of sealant at seam

Utilize a hanger (or equivalent) for maximum support at each side of the miter

### MATERIALS

Aluminum, Copper, Galvalume & Steel

### QUANTITY

20 per box

### COLORS

Standard Gutter Colors, Galvalume & Copper

PART CODE	PRODUCT NAME	TYPE OF INSTALL
GS501LC	5" LS-Screen	5"
GS502LC	6" LS-Screen	6"

PRODUCT FEATURES

-  Quick install.
-  Rainfall rate of 0.35" per hour.
-  Long/short diamond configuration for maximum strength.
-  Width is larger than standard gutter size for tighter fit
-  Rust resistant aluminum.
-  No endcaps/tools needed.
-  Pressure fit installation.
-  C-Lock Clip design snaps gutter into place.
-  Accommodates very steep roof lines.
-  Safe-spline rigid strength.

## LS-LOCK

### PRODUCT DESCRIPTION

A high-quality gutter protection system designed to keep your gutters functioning optimally. The system features a durable powder-coated steel construction that is built to withstand all types of weather conditions. The pressure fit design and roll lock feature ensure that the system stays securely in place, providing reliable protection against clogs and blockages caused by leaves, debris, and other environmental factors.

- Rainfall rate of 0.30" per hour.
- Minimal tools required.
- Pressure fit roll lock that is notched at one end, allowing the product to overlap for stabilized installation.
- Animal & nesting exclusion.
- All-weather powder coated steel allows for more rigidity.

## LS-GUARD

### PRODUCT DESCRIPTION

A premium gutter protection system designed to effectively keep leaves and debris out of your gutter system. Its innovative design features a diamond shield filtration system with ten diamond-shaped holes per sq. inch, which helps to block out even the smallest of debris. The shield wave design also prevents leaves and debris from becoming sun-dried on top of the guard, as they are simply blown away by the wind.

\* Screws not included

### QUANTITY

GROUND SPOUT

PRODUCT DESCRIPTION

Works with Standard Downspouts in 2"x3", 3"x4" & 4" Round Sizes

An inch of rainfall can push up to 620 gallons of water into a home's gutters.

By using a Direct Flow System of downspout extensions and pipes, homeowners can help prevent several common issues. Such as harmful seepage along the foundation, erosion, and more.

QUANTITY

15 per box

COLORS

Green, Black, Brown, White

PART CODE	PRODUCT NAME	AVAILABLE SIZES
GRNDSPTFG	Green Ground Spout	2"x3", 3"x4" & 4" Round Sizes

GRNDSPTRB	Brown Ground Spout	2"x3", 3"x4" & 4" Round Sizes
GRNDSPTW	White Ground Spout	2"x3", 3"x4" & 4" Round Sizes

PRODUCT FEATURES

- Eliminates leading cause of landscape erosion, helps prevent foundation damage, all at an affordable price.
- Components attach easily and stands up to years of exposure to the elements.
- A collapsed length of 24" and an expanded length of 48".
- Allows use when space is limited.

## SPLASH BLOCKS

### PRODUCT DESCRIPTION

The Splash Block by Spectra Gutter Systems has a quick and easy installation. It can accommodate any gutter by placing below your downspout. The Splash Block diverts water away from your home and helps slow down the water exiting your gutter system.

### QUANTITY
