HISTORY OF SPECTRA GUTTER SYSTEMS

Founded in St. Petersburg, FL in 1978, we are celebrating decades of leadership and innovation in the aluminum rainware manufacturing and wholesale distribution industry.

Spectra Gutter Systems moved to Atlanta, Georgia in 1992, and transformed our manufacturing and distribution from a small regional supplier into the premier manufacturer and distributor of rainware products in North America.

Today, Spectra Gutter Systems has 38+ regional locations to service our customers' needs and support their business. We are the fastest growing, most aggressive company in an established and stable industry.

With customers throughout the United States, we are the market leader in the aluminum rainware industry.

PRODUCT FEATURES

Aluminum coil is painted over a full clear coat painted lacquer to reduce corrosion

Roll coated paint process with a baked enamel finish

Aluminum is a recyclable material, making it an eco-friendly choice for those homeowners who prioritize sustainability

Aluminum gutters are light, which makes them easier and safer to install

STEEL COIL

PRODUCT DESCRIPTION

Galvalume steel is carbon steel coated with an alloy that combines the impervious properties of aluminum with the malleability and galvanic protection of zinc. The alloy coating gives Galvalume steel coil a smooth, plain finish.

MATERIALS

Galvalume

QUANTITY

Sold by the pound (LB)

PART CODE	PRODUCT NAME	AVAILABLE SIZES
2411GALVALUME	5" Steel Coil - 24 Gaugex11.75"	24 Gauge x 11.75"
2415GALVALUME	6" Steel Coil - 24 Gaugex15"	24 Gauge x 15"

2615GALVALUME	6" Steel Coil - 26 Gaugex15"	26 Gauge x 15"

PRODUCT FEATURES

- Corrosion resistant
 - Made of steel and have a coating on them that is a mix of 45% zinc and 55% aluminum
- Galvalume gutters are very reflective, meaning that they do not absorb heat like other metal gutters do

PRODUCT SPECIFICATIONS

TRIM COIL

PRODUCT DESCRIPTION

PVC 24" x 50" Trim Coil - Coated with poly vinyl chloride paint, the textured PVC trim coil lays flat, cuts clean, and is easy to install.

Double-Sided Colors 24" x 50" Trim Coil (.019) - Trim coil can be used to create decorative trim accents and other design elements for your home's exterior. Can be matched or used to complement home's existing windows and siding.

Gold Series 24" x 50" Trim Coil (.019) - Scratch resistant and has two-coat process with Plastilure, the Gold Series Trim Coil has superior color retention and resists weathering.

Rough Cedar Embossed - Trim coil can be used to create decorative trim accents and other design elements for your home's exterior. It can be matched or be used to complement the home's existing windows and siding. When using it around windows and siding, it can help provide a low maintenance exterior to your home.

Poly 24" x 50" Trim Coil (.019) - Coated with thermo polyester paint, the Smooth Poly Trim Coil is a beautiful and economical trim option.

PRODUCT DESCRIPTION

Available with or without clip

QUANTITY

1000 per box

PART CODE	PRODUCT NAME	AVAILABLE SIZES
5HTHWC	Ultra Hidden Hanger with Clip	5"
5HTH	Ultra Hidden Hanger without Clip	5"

PRODUCT FEATURES

- .063 aluminum high grade
- Channel-formed for strength
- Keyholes for strapping if needed
- A zinc-coated #10×1.5" screw is recommended (sold separately)
- Tighter fold fits comfortably behind drip edge
- Rounded front edges to protect gutter

5" STEEL HIDDEN HANGER

PRODUCT DESCRIPTION

Compatible with steel gutter installations and no clip for easy installation on drip edges

QUANTITY

1000 per box

PART CODE	PRODUCT NAME	AVAILABLE SIZES
5SHTHWC	Steel Hidden Hanger	5"

PRODUCT FEATURES

- .16 gauge steel for strength
- Keyholes for T-Bar strap (strap sold separately, code: TS)
- Rounded sides for improved strength
- Most commonly installed with #10×1.5" screw (sold separately)

HIDDEN HANGER

PRODUCT DESCRIPTION

LS-SCREEN

PRODUCT DESCRIPTION

A pressure fit gutter guard with a C-Lock Clip design and rust-resistant aluminum construction, the Leaf Series Screen provides quick and easy installation with no endcaps or tools required. The wider width and long/short diamond configurations ensure maximum strength and stability, accommodating steep roof lines while keeping leaves and debris out with its diamond shield filtration design.

QUANTITY

4 FT sections
50 pieces per box (200')

COLORS

Mill Finish

PREVENTS CLOGS FROM

-  Maple
-  Sweet Gum
-  Oak
-  Dogwood

PART CODE	PRODUCT NAME	TYPE OF INSTALL
GS501LC	5" LS-Screen	5"
GS502LC	6" LS-Screen	6"

PRODUCT FEATURES

-  Quick install
-  Rainfall rate of 0.35" per hour
-  Long/short diamond configuration for maximum strength
-  Width is larger than standard gutter size for tighter fit
-  Rust resistant aluminum
-  No endcaps/tools needed
-  Pressure fit installation
-  C-Lock Clip design snaps gutter into place
-  Accommodates very steep roof lines
-  Safe-spline rigid strength

LS-LOCK

PRODUCT DESCRIPTION

A high-quality gutter protection system designed to keep your gutters functioning optimally. The system features a durable powder-coated steel construction that is built to withstand all types of weather conditions. The pressure fit design and roll lock feature ensure that the system stays securely in place, providing reliable protection against clogs and blockages caused by leaves, debris, and other environmental factors.

QUANTITY

4 FT sections
25 pieces per box (100')

COLORS

Black

PREVENTS CLOGS FROM

-  Maple
-  Sweet Gum
-  Oak

PART CODE	PRODUCT NAME	TYPE OF INSTALL
GS441FM	5" LS-Lock	5"
GS442FM	6" LS-Lock	6"

PRODUCT FEATURES

-  Quick install
-  No endcaps required
-  Rainfall rate of 0.30" per hour
-  Minimal tools required
-  Pressure fit roll lock that is notched at one end, allowing the product to overlap for stabilized installation
-  Animal & nesting exclusion
-  All-weather powder coated steel allows for more rigidity

PRODUCT SPECIFICATIONS

LS-GUARD

PRODUCT DESCRIPTION

A premium gutter protection system designed to effectively keep leaves and debris out of your gutter system. Its innovative design features a diamond shield filtration system with ten diamond-shaped holes per sq. inch, which helps to block out even the smallest of debris. The shield wave design also prevents leaves and debris from becoming sun-dried on top of the guard, as they are simply blown away by the wind.

* Screws not included

QUANTITY

6 FT sections
50 pieces per box (300')

COLORS

Black & White

PREVENTS CLOGS FROM

-  Maple

6EGBK	6" LS-Guard Black	6"
6EGW	6" LS-Guard White	6"

PRODUCT FEATURES

-  Rainfall rate of 0.30" per hour
-  No shingle disruption
-  Shield wave design prevents leaves and debris from becoming sun-dried to topside. Leaves and debris are simply blown away by wind
-  Animal & nesting exclusion
-  Quick install
-  TrueCoat paint systems
-  Diamond shield filtration keeps debris out with ten diamond-shaped holes per sq. inch
-  Dual-fastening system adds superior strength to protect against wind & heavy snow

GROUND SPOUT®

PRODUCT DESCRIPTION

Works with Standard Downspouts in 2" x 3", 3" x 4", and 4" Round Sizes

An inch of rainfall can push up to 620 gallons of water into a home's gutters.

By using a Ground Spout® System of downspout extensions and pipes, homeowners can help prevent several common issues. Such as harmful seepage along the foundation, erosion, and more.

QUANTITY

15 per box

COLORS

Green, Black, Brown, White

PART CODE	PRODUCT NAME	AVAILABLE SIZES

PRODUCT SPECIFICATIONS

ADAPTERS

PRODUCT DESCRIPTION

Works with standard downspouts in 2" x 3" and 3" x 4"

Runoff from repeated downpours and heavy rains can do considerable damage to homes and landscapes, compromising foundations and footings, flooding patios and pathways, wreaking havoc in flowerbeds and lawns. The highly effective solution that totally encapsulates rain water from roof to under ground drainage system.

COLORS

With a collapsed length of 12.5" and an expanded length of 20"
- Components attach easily and stands up to years of exposure to the elements

Allows use when space is limited

UNDERGROUND SPOUT PRO

PRODUCT DESCRIPTION

The UnderGround Spout PRO provides a clean, efficient solution for directing runoff away from foundations, walkways, and landscaped areas. Its perforated design allows water to slowly release into the surrounding soil while channeling excess flow safely away. Flexible, durable, and engineered for underground performance, this spout integrates seamlessly with downspout extensions and drainage systems for long-term water management.
