The City of Jefferson and Jackson County's attention to Metro Atlanta's industrial and logistics boom has helped welcome distribution centers for major corporations such as Amazon, which now boasts three centers in the county, and has helped place Jefferson and Jackson County on the map. Industrial parks and logistics centers have been developed within the city limits and adjacent to the city to accommodate the continued interest. Not only is this area leading Atlanta's industrial market expansion up the northeast I-85 corridor, but in recent years, Jackson County has been recognized as one of the fastest growing counties in the United States.

Regional, national and international manufacturing companies alike are choosing Jackson County, GA as their base of operations in Metro Atlanta and the Southeast.
