Vote for SAFE & BECU

Who is BECU?

BECU is a Washington state-based credit union guided by one simple purpose for more than nine decades: **improving the financial well-being of its members and community.** Like SAFE, BECU is member-owned and purpose-driven, which means its success is measured by the value it creates for members, not by returns to shareholders. BECU makes this happen with competitive rates and low fees, along with innovative products and services.

SAFE & BECU. A Winning Combination for You.

SAFE & BECU is giving back more. If we come together, the total direct annual financial benefit to SAFE members is expected to increase by 30%*. **That's more potential member value for you.**

SAFE & BECU is more impact. The winning combination of SAFE & BECU means is a **boost for local philanthropic giving by \$1 million!** That's almost triple SAFE's current annual investment of \$445,000. How much would **\$1.5 million** going to local organizations improve our region?

SAFE & BECU is stronger. Our combined institution will manage nearly \$34 billion in assets, serve 1.8 million members, and operate over 80 locations, becoming the fourth-largest credit union in the United States. **That's more financial power serving you.**

Bringing together SAFE & BECU will be a winning combination for you—from more access and increased local giving to new programs and lower fees. **But, to approve the winning combination, we need your vote starting August 31st.**

* Estimated increase is based on an analysis of SAFE's 2024 financial results and the projected increase in total value back to members resulting from combining with BECU, including benefits from loan and deposit rates, and reduced fees, as compared to typical bank offerings. Individual savings and value will vary and are not guaranteed.
