

## Acurat by Robland

Acurat represents a new generation of Robland machines, developed with one goal: the perfect **balance between ease of use, precision, and design.**

Each machine is built in Bruges with decades of experience and direct feedback from our customers.

### The result?

Machines that don't just perform better, they feel better. As pleasant to use as they are to look at.

### COMFORT

Effortless control.  
Smooth precision.

### DESIGN

Balanced lines.  
Perfect ergonomics.

### BELGIAN QUALITY

Built to last decades.

### EXPERIENCE ACURAT

## More than technology.

When every detail matters, choose machines that match your standards.

Acurat by Robland, where technology, design, and craftsmanship meet.

**ACURAT by Robland**  
Comfort. Design. Quality.

**ACURAT**  
By Robland

### PRECISION REFINED

Born from experience.  
Built for precision.

## PANEL SAW

# Acurat Z500

The Z500 is more than just a new panel saw. It's the machine that marks Robland's entry into the high-end segment.

Robland has always stood for robustness and reliability. Today, we add something new: **comfort and design.**

Because true craftsmanship deserves a machine that feels as good as it works.

### NEW CONTROL PANEL WITH 12" TOUCHSCREEN

The control unit is mounted on a rotating arm for better visibility and ergonomics. Up to five axes are managed easily via one intuitive 12" screen. More possibilities, the same user-friendliness.

### SLIDING TABLE WITH EVEN SMOOTHER MOVEMENT

New PETG ball cage ensures quieter, wear-free movement. The milled arm with Ertalon wheels guarantees lifelong precision. A redesigned handle provides more control in every position.

### REDESIGNED SAW GUARD

The saw guard runs on dual IGUS guides and feels weightless thanks to its spring mechanism. Smooth, intuitive, and sleek, with fixed dust extraction for improved design and performance.

New control panel with **12" touchscreen**

Sliding table with **smoother movement**

Redesigned **saw guard**
