SYNEGO

born from synergy

Windows made of the proven REHAU SYNEGO profile are an excellent solution for single-family houses.

This profile brings together the REHAU expertise and technology to form an optimal system that combines high performance, comfort, and design.

- ✓ Excellent thermal insulation
- ✓ Dimensioned for the best glass
- ✓ Frame depth of 80 mm with 7 insulation chambers
- ✓ Best strength in its class
- ✓ Sound insulation up to 47 dB
- ✓ Two or three sealing levels

Care in every frame

A durable surface and design

High-Definition-Finishing guarantees a smooth surface that appears permanently clean. A wide range of shapes, colours and decors lets you match the windows to any house and interior.

Thermal comfort

Frame depth of 80 mm and multi-chamber construction provide superior thermal insulation and energy savings. SYNEGO helps maintain a comfortable climate and reduces heating costs.

Dimensioned for the best glass

SYNEGO enables double and triple glazing with glass up to 51 mm thick – depending on requirements for energy savings, safety, and acoustic comfort.

Silence and security

Three sealing levels reliably protect against noise, moisture and draught – for a quiet and comfortable home.

SYNEGO AD

A basic version with a double seal – ideal for reconstruction and development projects.

SYNEGO MD

Three sealing levels – higher comfort, recommended for new buildings and low-energy buildings.

TECHNICAL INFORMATION

Frame depth	80 mm
Number of chambers	7/6
Number of seals	3
Max. glazing width	50 mm

THERMAL INSULATION

with double glazing of 1.1	Uw of up to 1.1
with triple glazing of 0.6	Uw of up to 0.78
with triple glazing of 0.5	Uw of up to 0.71
