- ✓ Frame depth of 70 mm with 5 insulation chambers
- ✓ Sound insulation up to 44 dB
- ✓ Double and triple glazing
- ✓ An excellent value
- ✓ Available as a flat and design sash

Care in every frame

CLASSIC

A durable surface

The High-Definition-Finishing technology provides a smooth, easy-to-clean surface that is dirt and weather resistant.

Custom design

A straight or rounded sash, different colours, decors and shapes – ranging from square to arched. The CLASSIC easily adapts to any project.

Insulation glazing on request

The CLASSIC enables double or triple glazing based on the demands of the project – ranging from higher energy savings to improved security or acoustic comfort.

Time-tested REHAU quality

The five-chamber construction with a frame depth of 70 mm ensures stability, heat comfort, and a long service life.

CLASSIC LINE

A basic version with a straight sash.

CLASSIC DESIGN

An elegant design sash with integrated drip moulding.
