

Conforme a los poderes y facultades establecidos en la Ley Núm. 15 de 14 de abril de 1931, según enmendada, conocida como la Ley del Departamento del Trabajo y Recursos Humanos de Puerto Rico, y en la Ley Núm. 209-2003, según enmendada, conocida como la Ley del Instituto de Estadísticas de Puerto Rico, las entidades proponen adoptar una nueva versión de la Entrevista/Cuestionario que se planifica utilizar en la Encuesta de Grupo Trabajador (EGT) durante la próxima década.

Cada diez años es necesario actualizar la metodología de la EGT para atemperar su metodología a los resultados del último Censo de población y vivienda. Como parte de esta revisión, se consideran todos los elementos de la metodología, incluyendo la Entrevista/Cuestionario que se utiliza para recopilar la información en los hogares.

Los cambios propuestos buscan varios objetivos: i) precisar las preguntas a realizar para que se hagan de manera consistente, ii) cumplir con los estándares de la Organización Internacional del Trabajo (ILO por sus siglas en inglés), iii) llevar a cabo un mejor control del trabajo de campo, iv) hacer un uso más costo efectivo de los recursos, v) actualizar la tecnología utilizada para recopilar la información y vi) asegurar la utilidad, pertinencia y vigencia de las estadísticas de la EGT conforme con las necesidades de nuestro pueblo y los requerimientos de la economía moderna. Mediante acuerdo interagencial, el Departamento del Trabajo y Recursos Humanos además tiene el deber buscar que los resultados de la EGT se atemperen a las normas del *Current Population Survey* (CPS), encuesta federal homologa realizada por el *U.S. Bureau of Labor Statistics* y el *U.S. Census Bureau*.

La EGT produce estadísticas fundamentales sobre nuestro mercado laboral, incluyendo la Tasa de Desempleo y la Tasa de Participación Laboral, entre muchas otras. Los resultados de la EGT se utilizan para obtener fondos federales, para hacer propuestas, para tomar decisiones de negocio y de educación, al igual que se utilizan para tomar decisiones de política pública.

Se invita al público a que someta por escrito o por correo electrónico, comentarios o recomendaciones en relación a la Entrevista/Cuestionario durante el término de 30 días a partir de esta publicación, las cuales serán consideradas para su adopción final. Durante 30 días a partir de la publicación de este aviso, se tendrá disponible al público copia de la nueva versión de la EGT y documentos de apoyo en las oficinas del Instituto, localizadas en el segundo piso de la Calle Quisqueya #57 en San Juan, de lunes a viernes de 8:30 a.m. a 12:00 m. y de 1:00 p.m. a 4:30 p.m., y en el portal de Internet del Instituto de Estadísticas: www.estadisticas.gobierno.pr. Los comentarios deberán ser enviados al P.O. Box 195484, San Juan, PR 00919-5484 o al correo electrónico avisopublico@estadisticas.gobierno.pr.

Los documentos que acompañan este aviso son:

1. Resumen de cambios principales propuestos a la Entrevista/Cuestionario de la EGT
2. Borrador de Entrevista/Cuestionario propuesto
3. Cuestionario actual de la EGT
3. Cuestionario de la *Current Population Survey* del *U.S. Bureau of Labor Statistics* y el *Census Bureau*
4. Cuestionario de la Encuesta sobre la Comunidad de Puerto Rico 2015 del *U.S. Census Bureau*
5. Selección de tablas de la Encuesta sobre la Comunidad de Puerto Rico 2013 del *U.S. Census Bureau*

Resumen de cambios principales propuestos a la Entrevista/Cuestionario de la EGT

Cambio propuesto	Justificación
1) Precisar las preguntas de la Entrevista para asegurar una recopilación consistente.	El Cuestionario actual no está diseñado para que detalle las preguntas específicas que se deben realizar como parte de la Entrevista de la EGT. En la Entrevista propuesta, se detalla el guion que el encuestador deberá seguir desde el momento de hacer al acercamiento a la vivienda hasta finalizar la entrevista en español e inglés. Esto tiene la ventaja de que busca asegurar que la información se recopile de manera consistente entre encuestadores. El resultado es información de mayor calidad.
2) Añadir pregunta sobre salario mínimo	Existe una necesidad apremiante de contar con un estimado recurrente del número de personas que trabajan por el salario mínimo, para poder visibilizar el impacto de cambios en el salario mínimo sobre la empleomanía.
3) Incorporar preguntas del cuestionario suplementario sobre participación en uniones y sindicatos laborales explícitamente en la entrevista bases para que se realice todos los meses a ciertas viviendas en la muestra	Al momento, se lleva a cabo un cuestionario suplementario sobre la participación en uniones laborales cada tantos años. En conformidad con la <i>Current Population Survey</i> , se propone recopilar esta información todos los meses en el cuestionario principal en una sub-muestra de viviendas.
4) Eliminar preguntas sobre la persona que gana más en el hogar, el llamado "jefe del hogar"	En conformidad con la <i>Current Population Survey</i> , se propone eliminar la pregunta 7 del Cuestionario actual (¿Es esta la persona que aporta más al ingreso de este hogar?). En la Entrevista propuesta, se identifican las personas con referencia a las relaciones filiales, no al ingreso que aportan al hogar. Con este cambio, se discontinuará la publicación "Desempleo de los Jefes de la Familia" ¹ .

¹ Ver: http://www.estadisticas.gobierno.pr/iepr/Estadisticas/InventariodeEstadisticas/tabid/186/ctl/view_detail/mid/775/report_id/0621370b-f8d2-4100-a171-da609771dbab/Default.aspx.

Cambio propuesto	Justificación
5) Eliminar preguntas sobre el nombre de los negocios y fincas operadas por el hogar	Actualmente, se indaga sobre el nombre de los negocios y fincas operadas por miembros del hogar. Esta pregunta tiene el potencial de intimidar a los entrevistados y no necesariamente cumple con su objetivo principal de ayudar a identificar la industria y la ocupación del encuestado. Por ende, se propone eliminar.
6) Eliminar preguntas sobre salarios de cada persona en cada empleo	Actualmente, la EGT hace preguntas sobre el salario que gana cada miembro del hogar en su empleo principal y en un empleo secundario. Estas preguntas suelen tener una tasa de respuesta relativamente baja. También, al ser una pregunta sensitiva, a veces provoca la cesación de la entrevista por completo. Por otro lado, a partir del 2005, se cuenta con estadísticas detalladas sobre los ingresos de las personas a una frecuencia anual, provenientes de la nueva Encuesta sobre la Comunidad de Puerto Rico. Por lo tanto, en la Entrevista propuesta se propone simplificar considerablemente esta pregunta para indagar solamente sobre los ingresos totales del hogar. Además, esta pregunta se planifica realizar como última pregunta con respuestas por renglones pre-establecidos que el entrevistado escogerá sí mismo en una pantalla.
7) Redefinir "tiempo parcial" para propósitos estadísticos de 35 horas a 30 horas.	Actualmente, se utiliza 35 horas como umbral para determinar si una persona en la EGT trabaja a tiempo completo o a tiempo parcial. Se propone bajar esta cifra a 30 horas para representar mejor la realidad laboral de Puerto Rico. Esta cifra es consistente con las recomendaciones de la Organización Internacional del Trabajo.
8) Simplificar la codificación de industria para que sea solamente a nivel de grupo industrial principal (no subsectores).	Actualmente, en la EGT, se indaga sobre la industria y el sub-sector del empleo de los encuestados. Puede ser muy difícil para los encuestados conocer los sub-sectores donde trabajan sus familiares. Por ende, en conformidad con el <i>Current Population Survey</i> , se propone dejar de preguntar y codificar los sub-sectores industriales.

ENCUESTA DE GRUPO TRABAJADOR

**Departamento del Trabajo y Recursos Humanos
Instituto de Estadísticas de Puerto Rico**

16 de marzo de 2015

Ver 1.6

Trasfondo

Se presenta la entrevista nueva de la Encuesta de Grupo Trabajador (EGT) de Puerto Rico. El Departamento del Trabajo y Recursos Humanos realiza la EGT desde los años 1940. El propósito de la EGT es recopilar información sobre el estado de empleo de la población residente de Puerto Rico. Esta información provee importantes indicadores económicos sobre el mercado laboral de Puerto Rico, que son de un valor incalculable para el establecimiento de políticas públicas laborales, educativas, y sociales en Puerto Rico, al igual que para la toma de decisiones empresariales y de inversión.

El cuestionario nuevo de la EGT se diseñó tomando en cuenta los estándares de la Organización Internacional del Trabajo (ILO, su sigla en inglés)¹ y del *Current Population Survey*² (CPS) del *U.S. Census Bureau*. El resultado es una armonización de la EGT de Puerto Rico con estas dos de tal manera que facilite comparaciones de sus resultados con los Estados Unidos y a nivel internacional al analizar los datos.

Entrevista

Se incluye una serie de directrices para propiciar de modo apropiado el acercamiento de los entrevistadores y la ejecución de la EGT de manera eficaz y reproducible. Durante el primer mes de entrevista, éstas se harán mediante el método de entrevista personal asistida por computadora (CAPI en inglés). Los textos completos de cada pregunta se programarán para que aparezcan en la aplicación del CAPI, de tal manera que el entrevistador lea las preguntas tal y como aparecen en este documento. Además, se incluyen instrucciones adicionales para el programador y para el entrevistador entre corchetes.

El documento contiene 2 secciones:

- 1) Entrevista en persona - versión español
- 2) Entrevista en persona - versión inglés

| Sale por última vez (16to mes) | <input type="checkbox"/> |
| Sale a descansar (4to mes) | <input type="checkbox"/> |
| Ninguna de las anteriores | <input type="checkbox"/> |

Notas:

1. **Introducción:** Buenos días/ tardes/ noches. [ENTREVISTADOR: ASEGÚRESE DE TENER SU TARJETA DE IDENTIFICACIÓN VISIBLE.]

1.1. ¿Usted habla español or do you speak English? [PROGRAMADOR: SI CONTESTA EN INGLÉS, UTILIZAR VERSIÓN EN INGLÉS DE LA ENTREVISTA.]

Español ____

Inglés ____

Otro ____

1.2. Mi nombre es [] y trabajo para el Departamento de Trabajo y Recursos Humanos de Puerto Rico. Estamos realizando una encuesta sobre el empleo la cual es fundamental para medir la actividad laboral de Puerto Rico. Deseamos hacerle preguntas sobre usted y las personas que viven aquí, y sus actividades laborales. Sus respuestas serán completamente confidenciales. No se divulgará ninguna información que pueda identificarle. La encuesta deberá tomar no más de 15 minutos en ser completada. ¿Comenzamos?

Sí ____ [PROGRAMADOR: SI LA RESPUESTA ES AFIRMATIVA, CONTÍNE CON LA PREG. 1.3]

No ____ [ENTREVISTADOR: SI CONTESTA NO, DIGA: **SU COOPERACIÓN SERÍA MUY VALIOSA Y AGRADECIDA. ES EN BASE A ESTAS ENCUESTAS QUE EL GOBIERNO DE PUERTO RICO RECOGE INFORMACIÓN ESENCIAL SOBRE EL TRABAJO. Y SU CONFIDENCIALIDAD ESTÁ GARANTIZADA COMPLETAMENTE. SI CONTESTA NO NUEVAMENTE, TERMINE LA ENTREVISTA Y DIGA: MUCHAS GRACIAS POR SU TIEMPO.**]

1.3. ¿Cuál es su nombre? _____

1.4. ¿Cuál es su fecha de nacimiento? _____

Entonces, usted tiene (EDAD INSERTADA) años de edad. [PROGRAMADOR: INSERTE AQUÍ EL RESULTADO DEL CÁLCULO DE LA EDAD DE LA PERSONA. SI LA EDAD ES MENOR DE 16 AÑOS, VAYA A LA PREG. 1.5. SI LA EDAD ES IGUAL O MAYOR A 16 AÑOS, VAYA A LA PARTE SOBRE LA DIRECCIÓN ANTES DE LA PREG. 1.6. NOTA: SÓLO SE VA A ENTREVISTAR A PERSONAS CON 16 AÑOS O MÁS, PERO SE PEDIRÁ INFORMACIÓN SOBRE TODAS LAS PERSONAS, Y EN PARTICULAR SOBRE LAS PERSONAS CON 15 AÑOS O MÁS.]

1.5. ¿Hay alguien en la casa que tenga 16 años o más?

Sí ____ [ENTREVISTADOR: SI LA RESPUESTA ES SÍ, DIGA: **¿PODRÍA HABLAR CON ÉL O ELLA?** SI EN EFECTO LE TRAEN A OTRO MIEMBRO NUEVO DE LA VIVIENDA, VUELVA A LA PREG. 1.1.]

No ____ [ENTREVISTADOR: SI NO HAY ALGUIEN EN EL HOGAR CON 16 AÑOS O MÁS, TERMINE LA ENTREVISTA Y DIGA: **MUCHAS GRACIAS POR SU TIEMPO. EN ESTA OCASIÓN ESTAMOS ENTREVISTANDO PERSONAS DE 16 AÑOS O MÁS.**]

[ENTREVISTADOR: SI EL PARTICIPANTE PREGUNTA EL OBJETIVO DE ALGUNA DE ESTAS PREGUNTAS O RESISTE EN RESPONDER A ALGUNA PREGUNTA, DIGA: **ESTAS PREGUNTAS SON MUY IMPORTANTES PORQUE NOS AYUDARÁN A ENTENDER LA SITUACIÓN DEL EMPLEO EN PUERTO RICO. SUS RESPUESTAS SERÁN UTILIZADAS PARA CALCULAR ESTADÍSTICAS SOBRE EL TRABAJO Y SOBRE NUESTRA ECONOMÍA.**]

Tengo la dirección de su vivienda anotada como: [Dirección] [PROGRAMADOR: INSERTE BAJO "DIRECCIÓN" LA DIRECCIÓN DE LA VIVIENDA SEGÚN PROVISTA POR LA DATA PRECARGADA; ENTREVISTADOR: MOSTRAR PANTALLA DE TABLETA.] ¿Es ésta su dirección exacta?

Sí ____ [PROGRAMADOR: SIGA CON LA PREGUNTA 1.7]

No ____ [PROGRAMADOR: VAYA A LA PREGUNTA 1.6]

1.6. ¿Cuál es su dirección exacta? [PROGRAMADOR: CORRIJA LA DIRECCIÓN EN LA BASE DE DATOS.]

_____, PR 009__

1.7. ¿Para futuros meses, lo/la podemos contactar por teléfono para realizar la entrevista?

Sí ____ [PROGRAMADOR: SIGA CON LA PREGUNTA 1.8]

No ____ [PROGRAMADOR: VAYA A LA PREGUNTA 2.1]

1.8. ¿A qué número de teléfono podemos conseguirlo/la? _____

1.9. ¿A qué horario le conviene más para recibir una llamada? [ENTREVISTADOR: FAVOR DE LEER ALTERNATIVAS QUE SIGUEN.]

8-12 am ____

1-5 pm ____

5-9 pm ____

2. Composición del hogar

2.1. ¿Cuántas personas viven en este hogar, incluyéndose? Incluya a todas las personas que viven en el hogar, estén emparentadas entre sí o no, incluyendo recién nacidos o personas temporalmente ausentes por diferentes motivos (estudios, hospital, vacaciones, visitas, negocios, etc...).

Cantidad _____

2.2. ¿Algún residente de esta vivienda tiene negocio o finca? [ENTREVISTADOR: NO TIENE QUE PREGUNTAR EL NOMBRE DEL NEGOCIO NI QUIEN ES EL PROPIETARIO.]

Sí ____

No ____

3. Preguntas básicas demográficas de los individuos [PROGRAMADOR: LAS PREGUNTAS DE ESTA SECCIÓN SE REPETIRÁN PARA CADA HABITANTE. SE DEBE ASIGNAR UN NÚMERO DE IDENTIFICACIÓN A CADA HABITANTE.]

Las próximas preguntas se refieren a cada una de las personas que viven en este hogar. Si la persona tiene 15 años o más se le harán más preguntas. Vamos a comenzar con usted y luego le preguntamos sobre las demás personas en el hogar.

3.1. ¿Cuál es el nombre del habitante? _____ [NOMBRE] [PROGRAMADOR: PARA EL HABITANTE NÚMERO 1 BRINQUE ESTA PREGUNTA, PERO EN SU LUGAR GUARDE LA CONTESTACIÓN A LA PREGUNTA 1.3.]

3.2. ¿Cuál es la fecha de nacimiento de NOMBRE? _____ [PROGRAMADOR: PARA EL HABITANTE NÚMERO 1, BRINQUE ESTA PREGUNTA, PERO EN SU LUGAR GUARDE LA CONTESTACIÓN A LA PREGUNTA 1.4.]

3.3. Indique el sexo suyo/de NOMBRE: [ENTREVISTADOR: EN CASO QUE PUEDA IDENTIFICAR EL SEXO DE LA PERSONA ENTREVISTADA, PUEDE RESPONDER A ESTA PREGUNTA SIN LEERLA EN VOZ ALTA. DE LO CONTRARIO, CON TONO RESPETUOSO, PREGUNTE: **¿ES MASCULINO O FEMENINA?**]

Masculino ____

Femenina ____

3.4. ¿Cuál fue el último grado o nivel educativo que completó usted/NOMBRE?

- Nunca fue a la escuela _____
Pre-escolar (Pre-kínder o kínder) _____
1ro a 3er grado _____
4to a 6to grado _____
7mo a 9no grado _____
10mo a 11mo grado _____
Cursó 12mo grado pero no se graduó _____
Se graduó de 12mo grado (4to año de escuela superior) o pasó el examen de equivalencia _____
Se graduó de algún curso postsecundario no universitario (Técnico/vocacional) _____
Se graduó de grado asociado _____
Bachillerato _____
Maestría _____
Doctorado profesional (MD, JD, Dentista o equivalente) _____
Doctorado Ph.D o equivalente (Incluye Ed.D, D.P.H, Dr.PH, entre otros) _____
Otro (especifique): _____
No sabe/no se acuerda/no contesta _____

[ENTREVISTADOR: SI LA RESPUESTA ES “Recibe/recibió educación especial”, PREGUNTE: **¿CUÁL FUE EL ÚLTIMO GRADO O NIVEL EDUCATIVO COMPLETADO BAJO EDUCACIÓN ESPECIAL?** MARQUE LA CATEGORÍA CORRESPONDIENTE.]

3.5. ¿Qué parentesco o relación tiene NOMBRE con usted. [ENTREVISTADOR: PARA EL HABITANTE NÚMERO 1 BRINQUE ESTA PREGUNTA PERO ANOTE LA RESPUESTA COMO “HABITANTE 1”.]

- Habitante 1 _____
Esposo/Esposa _____
Hijo/Hija _____
Hermano/Hermana _____
Padre/Madre _____
Hijastro/Hijastra _____
Cuñado/Cuñada _____
Nieto/Nieta _____
Otro (especifique) _____

3.6. ¿Cuál es el estado civil suyo/de NOMBRE? [ENTREVISTADOR: FAVOR DE LEER LAS ALTERNATIVAS.]

- Soltero/a _____
Casado/a con cónyuge presente _____
Casado/a con cónyuge ausente _____
Viudo/a _____
Divorciado/a _____
Unión consensual _____

[PROGRAMADOR: SI NOMBRE TIENE 14 AÑOS O MENOS EL ENTREVISTADOR DEBE DECIR: **AHORA VAMOS A CONTINUAR CON EL PRÓXIMO MIEMBRO DE LA VIVIENDA.** VUELVA A LA PREGUNTA 3.1. SI NOMBRE TIENE 15 AÑOS O MÁS CONTÍNE CON LA PREGUNTA 4.1, SI APLICA. SI LLENÓ TODA LA INFORMACIÓN DE TODAS LAS PERSONAS QUE RESIDEN EN EL HOGAR, PROCEDA A LA PREG. D.1.]

4. Actividades de trabajo

Las preguntas que le voy a hacer ahora sobre el trabajo deben corresponder a la SEMANA PASADA. POR SEMANA PASADA, quiero decir desde el domingo pasado al sábado pasado, el cual incluye el día 12 de este mes. Recuerde que sus respuestas son totalmente confidenciales.

4.1. Durante la semana pasada, ¿llevó usted/NOMBRE a cabo algún trabajo por paga o para recibir alguna ganancia?

Sí ____ [PROGRAMADOR: PROCEDA A LA SECC. A.]

No ____ [PROGRAMADOR: SI SE CONTESTÓ SÍ EN LA PREGUNTA 2.2 CONTÍNE A LA PREGUNTA 4.2. DE LO CONTRARIO, PROCEDA A LA PREGUNTA 4.5.]

4.2. Durante la semana pasada, ¿llevó usted/NOMBRE a cabo algún trabajo, aunque haya sido sin paga, en el negocio o finca de alguno de los residentes de este hogar?

Sí ____ [PROGRAMADOR: CONTÍNE A LA PREG. 4.3.]

No ____ [PROGRAMADOR: VAYA A LA PREG. 4.5.]

4.3. Durante la semana pasada, ¿recibió usted/NOMBRE alguna paga o ganancia por lo trabajado en el negocio o finca de alguno de los residentes de este hogar?

Sí ____ [PROGRAMADOR: CONTÍNE A LA SECC. A.]

No ____ [PROGRAMADOR: CONTÍNE A LA PREG. 4.4.]

4.4. ¿Cuántas horas trabajó usted/NOMBRE durante la semana pasada en el negocio o finca del residente de este hogar?

Horas ____ [PROGRAMADOR: SI TRABAJÓ 15 HORAS O MÁS, VAYA A LA SECC. A. SI TRABAJÓ 14 HORAS O MENOS, VAYA A LA PREG. 4.5]

4.5. Durante la semana pasada, ¿tuvo usted/NOMBRE algún empleo ya sea a tiempo completo o parcial? Incluya cualquier empleo, aunque haya estado ausente temporariamente de éste. [PROGRAMADOR: SI VIENE DE LA PREG. 4.4, AÑADE "A PARTE DEL NEGOCIO O FINCA".]

Sí ____ [PROGRAMADOR: VAYA A LA SECC. A.]

No ____ [PROGRAMADOR: VAYA A LA PREG. 4.6]

4.6. Durante la semana pasada, ¿estuvo usted/NOMBRE sin trabajo temporariamente?

Sí ____ [PROGRAMADOR: VAYA A LA PREG. 4.7.]

No ____ [PROGRAMADOR: VAYA A LA PREG. 4.10]

4.7. ¿Le ha dado a usted/NOMBRE su patrono alguna fecha para que regrese a trabajar?

Sí ____ [PROGRAMADOR: VAYA A LA PREG. 4.9.]

No ____ [PROGRAMADOR: VAYA A LA PREG. 4.8.]

4.8. ¿Le han indicado o sugerido a usted/NOMBRE que le llamarán a trabajar nuevamente en los próximos seis (6) meses?

Sí ____ [PROGRAMADOR: VAYA A LA PREG. 4.9.]

No ____ [PROGRAMADOR: VAYA A LA PREG. 4.10.]

4.9. Durante la semana pasada, ¿estuvo usted/NOMBRE disponible o en condiciones para trabajar si lo hubiesen llamado?

Sí ____ [PROGRAMADOR: VAYA A LA SECC. B.]
No ____ [PROGRAMADOR: VAYA A LA PREG. 4.13.]

4.10. ¿Ha hecho usted/NOMBRE alguna acción o gestión en las últimas cuatro semanas para conseguir empleo?

Sí ____ [PROGRAMADOR: VAYA A LA PREG. 4.11.]
No ____ [PROGRAMADOR: VAYA A LA SECC. C.]

4.11. Durante las últimas cuatro (4) semanas ¿qué gestiones llevó a cabo usted/NOMBRE para conseguir empleo?
[ENTREVISTADOR: NO LEA LAS ALTERNATIVAS. SELECCIONE TODAS LAS QUE APLIQUEN.]

Métodos activos

Tuvo contacto con patrono potencial ____
Tuvo contacto con agencia de empleo pública ____
Tuvo contacto con agencia de empleo privada ____
Tuvo contacto con amigo o familiar ____
Tuvo contacto con la universidad/escuela ____
Envió resumes o llenó solicitudes ____
Verificó registros profesionales/ o de uniones ____
Colocó o contestó anuncios ____

Métodos pasivos

Vio anuncios o clasificados ____
Asistió a adiestramientos ____

Otros métodos activos no enumerados [ENTREVISTADOR: LLENE TODAS LAS QUE APLIQUEN]

[ENTREVISTADOR: SONDEE CON LA PREGUNTA **¿ALGUNA OTRA COSA?**, HASTA QUE LA PERSONA DIGA NO. PROGRAMADOR: SI LA PERSONA INDICÓ POR LO MENOS UN (1) MÉTODO ACTIVO (TANTO ENUMERADO COMO NO ENUMERADO EN LA LISTA), VAYA A LA PREGUNTA 4.12; DE LO CONTRARIO, VAYA A LA SECC. C.]

4.12. Durante la semana pasada, ¿estuvo usted/NOMBRE disponible o en condiciones para comenzar a trabajar de haber conseguido un empleo?

Sí ____ [PROGRAMADOR: VAYA A LA SECC. B.]
No ____ [PROGRAMADOR: VAYA A LA PREG. 4.13.]

4.13. ¿Por qué razón o circunstancia no estaba usted/NOMBRE disponible o en condiciones para comenzar a trabajar durante la semana pasada?

Estuvo enfermo(a) temporariamente ____ [PROGRAMADOR: VAYA A LA SECC. B.]
Estuvo estudiando ____ [PROGRAMADOR: VAYA A LA SECC. C.]
Otra razón [ENTREVISTADOR: ESPECIFIQUE LA "OTRA RAZÓN" EN LA LÍNEA SIGUIENTE. LUEGO VAYA A LA SECC. C.]: _____

Sección A: Empleados/as

A.1. ¿Cuántos empleos con paga tuvo usted/NOMBRE la semana pasada?

- 1 (Uno)
- 2 (Dos)
- 3 o más (Tres o más)

[ENTREVISTADOR: SI LA PERSONA TIENE 1 (UN) SÓLO EMPLEO CON PAGA, CONSIDERE SU EMPLEO COMO EL EMPLEO PRINCIPAL. SI EL HABITANTE TIENE MÁS DE UN EMPLEO CON PAGA, PREGUNTE: ¿A CUÁL EMPLEO LE DEDICA MÁS TIEMPO? ¿A CUÁL EMPLEO LE DEDICA MÁS TIEMPO DESPUÉS DE ESE? MUCHAS GRACIAS. PARA EL RESTO DE ESTA ENTREVISTA, POR “EMPLEO PRINCIPAL” NOS REFERIREMOS AL PRIMERO Y POR “SEGUNDO EMPLEO” NOS REFERIREMOS AL SEGUNDO. NO LE PREGUNTAREMOS SOBRE SU TERCER EMPLEO CON PAGA U OTRO SI TIENE.]

A.2. ¿Qué tipo de empleo con paga tuvo usted/NOMBRE la semana pasada para su empleo principal y para su segundo empleo? [ENTREVISTADOR: LÉALE LAS ALTERNATIVAS Y CLARIFIQUE SI ES NECESARIO. SI EL ENTREVISTADO PREGUNTA QUÉ SIGNIFICA “INCORPORADO” DECIR: **INCORPORADO SIGNIFICA QUE EL NEGOCIO ESTÁ INCORPORADO EN EL REGISTRO DE CORPORACIONES DEL GOBIERNO DE PUERTO RICO.** CONSIDERE EL EMPLEO PRINCIPAL (E1) Y EL SEGUNDO EMPLEO (E2).]

	E1	E2
Empleado/a de patrono privado <u>con</u> fines de lucro	___	___
Empleado/a de patrono privado <u>sin</u> fines de lucro	___	___
Empleado/a del gobierno federal	___	___
Empleado/a del gobierno de Puerto Rico	___	___
Empleado/a del gobierno municipal	___	___
Empleado/a por cuenta propia con negocio incorporado que trabaja dentro del hogar	___	___
Empleado/a por cuenta propia con negocio no-incorporado que trabaja dentro del hogar	___	___
Empleado/a por cuenta propia con negocio incorporado que trabaja fuera del hogar	___	___
Empleado/a por cuenta propia con negocio no-incorporado que trabaja fuera del hogar	___	___

A.3. ¿Cuántas horas trabaja usted/NOMBRE usualmente a la semana para el empleo principal? ¿Y para el segundo empleo? (si aplica)? [PROGRAMADOR: ACEPTAR CÓDIGOS “V” (VARÍA BASTANTE) Y “N” (NO SABE/NO INDICA) COMO POSIBLES CONTESTACIONES EN ESTE CAMPO.]

Empleo principal: Horas semanales _____ Segundo empleo: Horas semanales _____

A.4. ¿Incluyendo horas adicionales o menos trabajadas, cuántas horas trabajó usted/NOMBRE en realidad la semana pasada en el empleo principal? ¿Y en el segundo empleo? (si aplica) [ENTREVISTADOR: SI NO TRABAJÓ INDIQUE “0” HORAS.] [PROGRAMADOR: ACEPTAR CÓDIGOS “V” (VARÍA BASTANTE) Y “N” (NO SABE/NO INDICA) COMO POSIBLES CONTESTACIONES EN ESTE CAMPO.]

Empleo principal: Horas trabajadas _____ Segundo empleo: Horas trabajadas _____

TOTAL _____ [PROGRAMADOR: PONGA AQUÍ LA SUMA DE LAS HORAS DEL EMPLEO PRINCIPAL Y DEL SEGUNDO EMPLEO. SI NO TRABAJÓ (INDIQUE “0” HORAS EN TOTAL), Y VAYA A LA PREGUNTA A.5. SI TRABAJÓ EN TOTAL 29 HORAS O MENOS, VAYA A LA PREG. A.7. SI TRABAJÓ EN TOTAL 30 HORAS O MÁS, VAYA A LA PREG. A.9.]

A.5. ¿Tuvo usted/NOMBRE algún empleo la semana pasada, en el cual no trabajó?

- Sí _____ [ENTREVISTADOR: VAYA A LA PREG. A.6.]
- No _____ [ENTREVISTADOR: VERIFIQUE LA INFORMACIÓN NUEVAMENTE A PARTIR DE LA PREGUNTA 4.5 DE LA SECC. ANTERIOR.]

A.6. ¿Por qué razón o circunstancia no trabajó la semana pasada? [ENTREVISTADOR: NO LEA LAS ALTERNATIVAS. ESPECIFIQUE TODAS LAS QUE APLICAN.]

Estaba enfermo _____
Estaba de vacaciones _____
Había mal tiempo _____
Había un paro laboral temporero _____
Había un paro laboral indefinido _____
Tiene que cuidar de hijos(as) _____
Obligación familiar _____
Razones personales _____
Licencia por maternidad/paternidad _____
Adiestramiento/s _____
Otra razón (especifique) _____

[PROGRAMADOR: VAYA A LA PREGUNTA A.9.]

A.7. ¿Le hubiese gustado a usted/NOMBRE trabajar más horas la semana pasada?

Sí _____ ¿Cuántas horas adicionales? _____
No _____

A.8. ¿Por qué razón o circunstancia no trabajó usted/NOMBRE más horas? [ENTREVISTADOR: NO LEA LAS ALTERNATIVAS. ESPECIFIQUE TODAS LAS QUE APLICAN.]

Hay poco trabajo o por las condiciones del negocio _____
No pudo encontrar empleo con más horas _____
Carácter estacional del negocio _____
Enfermedad o impedimento _____
Tiene que cuidar de hijos(as) _____
Obligaciones familiares _____
Mal tiempo _____
Trabajo a tiempo completo es por menos de 30 hrs. _____
Estudios/adiestramiento _____
Límites en ingresos de seguro social/retiro _____
Razones personales _____
Otra: _____

[PROGRAMADOR: LAS SIGUIENTES PREGUNTAS A.9- A.12 SÓLO SE REALIZAN EN EL 1ER Y 5TO MES DE ENTREVISTA, AUNQUE EN EL 2DO MES DE ENTREVISTA SE VUELVE A PREGUNTAR PARA PROPÓSITOS DE VALIDACIÓN.]

A.9. [PROGRAMADOR: SI EN LA PREGUNTA A.2 BAJO LA PRIMERA COLUMNA SE CONTESTÓ UNA DE LAS OPCIONES DE GOBIERNO, BRINCAR ESTA PREGUNTA.]

¿En la semana pasada, el empleo principal que tuvo usted/NOMBRE fue en cuál de las siguientes industrias? [ENTREVISTADOR: LEA LAS SIGUIENTES ALTERNATIVAS EN VOZ ALTA HASTA OBTENER LA RESPUESTA CORRECTA. NO LEA LA OPCIÓN "NO QUISO CONTESTAR".]

Agricultura, silvicultura, pesca y/o cacería _____
Construcción _____
Manufactura _____
Ventas al por mayor _____
Ventas al detal _____
Otro (especifique): _____
No quiso contestar _____

A.10. Durante la semana pasada en su empleo principal, ¿qué tipo de trabajo hizo usted/NOMBRE, es decir, qué ocupación desempeñó? [ENTREVISTADOR: INDIQUE EL TRABAJO QUE REALIZÓ, NO SU LUGAR DE TRABAJO.]

A.11. Durante la semana pasada, ¿cuáles fueron las actividades o deberes más importantes para usted/NOMBRE en su empleo principal? (Por ejemplo, cuidar pacientes, supervisar personal de seguridad, reparar computadoras, entrar datos en computadoras...)

A.12. ¿Tuvo usted/NOMBRE en su trabajo la semana pasada las mismas tareas y responsabilidades que hace un mes atrás?

Sí _____

No _____

[PROGRAMADOR: LAS SIGUIENTES PREGUNTAS A.13 A A.17 SÓLO SE REALIZAN EN EL 4TO Y 8O MES DE ENTREVISTA.]

- Nadie en la casa ☐ 11
Temporalmente ausente ☐ 12
Rehusó informar ☐ 13
Otra, ocupada (especifique): ☐ 14

Tipo B:

- Desocupada ☐ 21
En reconstrucción o remodelación ☐ 22
Ocupada temporalmente por personas
con residencia permanente en otra parte. ☐ 23
Convertida temporalmente en almacén ☐ 24
Veraneo ☐ 25
Otra, desocupada (especifique): ☐ 26

Tipo C:

- Demolida ☐ 31
Fuera de segmento ☐ 32
Convertida permanentemente en
negocio o almacén. ☐ 33
Clausurada ☐ 34
Fusionada ☐ 35
Otra (especifique) ☐ 36

Notas:

Unidad: _____ (Letra) Total de Planillas: _____

- (A) Número de control
(B) Municipio y Área
(C) Sector Censal
(D) Segmento número
(E) Planilla número
(F) Muestra
(G) Clave del recopilador

Indique si esta vivienda pertenece o no a la muestra que sale por última vez o que sale a descansar durante ocho meses.

- Sale por última vez (1to mes) (1)
Sale a descansar (4to mes) (2)
Ninguna de las anteriores (3)

(H) ¿Cuántas personas viven en este hogar, incluyéndose?
Incluya a todas las personas que viven en el hogar, estén emparentadas entre sí o no.

(I) Por favor, indique el número de personas que viven en este hogar que tienen 15 años o menos, de acuerdo a su sexo y grupo de edad.

- A. 4 años o menos: Masculino ☐ Femenino ☐
B. 5 a 9 años: Masculino ☐ Femenino ☐
C. 10 a 12 años: Masculino ☐ Femenino ☐
D. 13 a 15 años: Masculino ☐ Femenino ☐

Verifique preguntando:

¿El número de personas de 16 años o más es _____?
El total de esta pregunta más la pregunta I, debe ser igual a la respuesta dada en la pregunta H.

(J) Por favor, indique el número de personas que viven en este hogar que tienen 60 años o más, de acuerdo a su sexo.

Personas de 60 años o más: Masculino ☐ Femenino ☐

(K) ¿Hay algún residente de esta vivienda que tenga un negocio o una finca?

Sí (1) No (2)

En adelante, llenar para
cada miembro del hogar de 16 años o más

1. Línea número

2. ¿Qué edad tiene?

3. (Indique el sexo de la persona)

Masculino (1)

Femenino (2)

4. ¿Cuál fue el último grado o nivel educativo que completó?

- Nunca estudió ☐ 0
- 1ro a 3er grado ☐ 1
- 4to a 6to grado ☐ 2
- 7mo a 9no grado ☐ 3
- 10mo a 11mo grado ☐ 4
- Escuela superior (12mo grado) ☐ 5
- Estudios postsecundarios, sin grado ☐ 6
- Grado asociado/ técnico-vocacional ☐ 7
- Bachillerato ☐ 8
- Maestría ☐ 9
- Doctorado ☐ 10
- Jurisdoctor ☐ 11
- Otro (especifique) ☐ 12
- _____
- No sabe ☐ 99

5. ¿Es esta la persona que aporta más al ingreso de este hogar?

Sí (1) → Si contestó Sí, vaya a la pregunta 7

No (2)

6. ¿Qué parentesco o relación tiene esta persona con la que aporta más al ingreso del hogar? (Indique todos los tipos de parentesco que apliquen)

- Esposo/a ☐ 1 Hijastro/a ☐ 5
- Hijo/a ☐ 2 Cuñado/a ☐ 6
- Hermano/a ☐ 3 Nieto/a ☐ 7
- Padre/ Madre ☐ 4 Otro ☐ 8
- (Especifique): _____

7. ¿Cuál es el estado civil de la persona?

- Soltero/a ☐ 1
- Casado/a con cónyuge presente ☐ 2
- Casado/a con cónyuge ausente ☐ 3
- Viudo/a ☐ 4
- Divorciado/a ☐ 5
- Unión consensual ☐ 6

Encuestador(a): Léale a la persona entrevistada

Las siguientes preguntas se refieren a la semana pasada, es decir, el periodo de siete días de domingo a sábado, que incluye el día 12 de este mes.

8. Durante la semana pasada, ¿llevó a cabo algún trabajo por paga o para recibir alguna ganancia?

Sí ☐ 1 → Vaya a la SECCIÓN A

No ☐ 2 → Véase pregunta (K) en página 1

• Si contestó Sí en la p. (K), vaya a la p. 9

• Si contestó No en la p. (K), vaya a la p. 12

9. Durante la semana pasada, ¿llevó a cabo algún trabajo, aunque haya sido sin paga, en el negocio o finca del residente de este hogar?

Sí ☐ 1 → Vaya a la pregunta 10

No ☐ 2 → Vaya a la pregunta 12

10. Durante la semana pasada ¿recibió alguna paga o ganancia por lo trabajado en el negocio o la finca del residente de este hogar?

Sí ☐ 1 → Vaya a la SECCIÓN A

No ☐ 2 → Vaya a la pregunta 11

11. ¿Cuántas horas trabajó durante la semana pasada en el negocio o finca del residente de este hogar?

• Si trabajó 15 horas o más, vaya a la pregunta A7

• Si trabajó 14 horas o menos, vaya a la p.12

12. Durante la semana pasada, ¿tuvo algún empleo ya sea a tiempo completo o parcial? Incluya cualquier empleo, aunque haya estado ausente temporariamente de éste. (Si viene de la pregunta 11, sería “A parte del negocio o finca”)

Sí ☐ 1 → **Vaya a la SECCIÓN A**

No ☐ 2 → **Vaya a la p. 13**

13. Durante la semana pasada, ¿estuvo sin trabajo temporariamente, es decir, en “layoff”?

Sí ☐ 1 → **Vaya a la p. 14**

No ☐ 2 → **Vaya a la p. 17**

14. ¿Le ha dado su patrono alguna fecha para que regrese a trabajar?

Sí ☐ 1 → **Vaya a la p. 16**

No ☐ 2 → **Vaya a la p. 15**

15. ¿Le han indicado o sugerido que le llamarán a trabajar nuevamente en los próximos seis (6) meses?

Sí ☐ 1 → **Vaya a la p. 16**

No ☐ 2 → **Vaya a la p. 17**

16. Durante la semana pasada, ¿estuvo disponible o en condiciones para trabajar si lo hubiesen llamado?

Sí ☐ 1 → **Vaya a la SECCIÓN B**

No ☐ 2 → **Vaya a la p. 20**

17. ¿Ha hecho alguna acción o gestión en las últimas cuatro (4) semanas para conseguir empleo?

Sí ☐ 1 → **Vaya a la p. 18**

No ☐ 2 → **Vaya a la SECCIÓN C**

18. Durante las últimas cuatro (4) semanas ¿qué gestiones llevó a cabo para conseguir empleo? **(No lea las alternativas. Seleccione todas las que apliquen)**

Métodos activos

Tuvo contacto con patrono potencial ☐ 1

Tuvo contacto con agencia de empleo pública ☐ 2

Tuvo contacto con agencia de empleo privada ☐ 3

Tuvo contacto con amigo o familiar ☐ 4

Tuvo contacto con la universidad/ escuela ☐ 5

Envió resúmenes o llenó solicitudes ☐ 6

Verificó registros profesionales/ o de uniones ☐ 7

Colocó o contestó anuncios ☐ 8

Métodos pasivos

Vio anuncios o clasificados ☐ 9

Asistió a adiestramientos ☐ 10

Otros métodos activos no enumerados

en la lista ☐ 11

A. _____

B. _____

Sondee con la pregunta: ¿Alguna otra cosa?, hasta que la persona diga NO.

Si la persona indicó por lo menos un (1) método activo (tanto enumerado como no enumerado en la lista), vaya la pregunta 19; de lo contrario, vaya a la SECCIÓN C.

19. Durante la semana pasada, ¿estuvo disponible o en condiciones para comenzar a trabajar de haber conseguido un empleo?

Sí ☐ 1 → **Vaya a la SECCIÓN B**

No ☐ 2 → **Vaya a la p. 20**

20. ¿Por qué razón o circunstancia no estaba disponible o en condiciones para comenzar a trabajar durante la semana pasada?

Estuvo
enfermo(a)

temporamente ☐ 1 → Vaya a la SECCIÓN B

Otra razón ☐ 2 → Si indicó "otra razón",
especifique la misma en
el espacio siguiente, y
luego vaya a la SECCIÓN C

SECCIÓN A: EMPLEADOS/AS

A.1 ¿Cuántos empleos con paga tuvo la semana pasada?

☐ 1 ☐ 2 ☐ 3 ☐ 4

Si tiene más de un empleo, léale la siguiente nota a la persona entrevistada :

Si tuvo más de un empleo con paga la semana pasada, por favor haga referencia en adelante al empleo que le dedica más tiempo como **el principal**, y al otro empleo como su **segundo empleo**. Omita la información de un tercer empleo.

A.2 ¿Cuál de los siguientes tipos de empleo con paga tuvo la semana pasada? (Léale las alternativas. Considere sólo el empleo principal)

Empleado/a de patrono privado con fines de lucro ☐ 1

Empleado/a de patrono privado sin fines de lucro ☐ 2

Empleado/a del gobierno federal ☐ 3

Empleado/a del gobierno estatal ☐ 4

Empleado/a del gobierno municipal ☐ 5

Empleado/a por cuenta propia que trabaja dentro del hogar ☐ 6

Empleado/a por cuenta propia que trabaja fuera del hogar ☐ 7

A.3 Usualmente, ¿cuántas horas trabaja a la semana? (Especifique para cada empleo, si tiene más de uno)

Empleo principal horas semanales

Varía bastante ☐ No sabe/No indica ☐

Segundo empleo horas semanales

Varía bastante ☐ No sabe/No indica ☐

A.4 ¿Cuántas horas trabajó la semana pasada? (Especifique para cada empleo, si tiene más de uno)

Empleo principal horas

Segundo empleo horas

TOTAL horas

- Si no trabajó (indicó "0" horas en total), vaya a la pregunta A5(a)
- Si trabajó en total 34 horas o menos, vaya a la pregunta A6(a)
- Si trabajó en total 35 horas o más, vaya a la pregunta A7

A.5(a) ¿Tuvo algún empleo la semana pasada, en el cual no trabajó?

Sí ☐ 1 → Vaya a la pregunta A5(b)

No ☐ 2 → Verifique información nuevamente a partir de pregunta 12 (sección anterior).

A.5(b) ¿Por qué razón o circunstancia no trabajó la semana pasada?

Estaba enfermo/a ☐ 1

Estaba de vacaciones o días feriados ☐ 2

Había mal tiempo ☐ 3

Había un paro laboral temporero ☐ 4

Había un paro laboral indefinido ☐ 5

Otra razón (especifique) ☐ 6

Vaya a la pregunta A.7.

A.6.(a) ¿Le hubiese gustado trabajar más horas la semana pasada? **(Especifique para cada empleo, si tiene más de uno)** .

Empleo principal Sí ☐ 1 ¿cuántas horas ?
No ☐ 2

Segundo empleo Sí ☐ 1 ¿cuántas horas ?
No ☐ 2

A.6.(b) ¿Por qué razón o circunstancia no trabajó más horas?

Hay poco trabajo o por las condiciones del negocio ☐ 1

No pudo encontrar empleo con más horas ☐ 2

Carácter estacional del negocio ☐ 3

Enfermedad o impedimento ☐ 4

Tiene que cuidar de hijos(as) ☐ 5

Mal tiempo ☐ 6

Razón personal ☐ 7

Otra: ☐ 8

A.7 ¿En qué industria o actividad de la economía trabajó o tuvo el empleo la semana pasada? **(Considere sólo el empleo principal, si tiene más de uno).**

1. Agricultura, silvicultura, pesca y cacería ☐ 1

2. Servicios ☐ 2

(Especifique el subsector): _____

3. Construcción ☐ 3

HELLO

***Current Population Survey**

Hello. This is from the U.S. Census Bureau.

May I please speak to Respondent name?

- 1 This is correct person
- 2 Correct person called to phone
- 3 Person not home now or not available now (incl. temp ill/hosp.)
- 4 Person unknown at this number
- 5 Person no longer lives there (Includes deceased individuals)
- 6 Other outcome OR problem interviewing household.

INTRO 1ST

Hello, I'm from the U.S. Census Bureau.

I'm calling concerning the Current Population Survey. We contacted this household last month to obtain the governments statistics on employment and unemployment in your city and across the country. I'm calling this month to update the information. I have your address listed as:

Is that your exact address?

- 1 SAME address
- 2 MOVED, not same address
- 3 Haven't moved, but address has changed
- 4 Incorrect address previously recorded

Basic CPS Questionnaire

Demographic Items

PERSTAT

(Are all of these persons still living here? / Person status)

- 1 Person deceased
- 2 Person moved out
- 3 Person left - was a URE last month
- 4 Delete person - to correct previous mistake
- 5 Person is a URE this month
- 9 Reinststate person

FNAME

(What are the names of all persons living or staying here? / What is the name of the next person)

*Enter 999 if no more persons

LNAME

*Enter Last Name

S_HHMEM

Is this (name of person talking about)'s usual place of residence?

- 1 Yes
- 2 No
- 3 Proxy

URE

Does (name of person talking about) have a usual place of residence elsewhere?

- 1 Yes
- 2 No

SEX

What is (name of person talking about)'s sex?

- 1 Male
- 2 Female

NROS2B

*16 Persons in household roster At this point count additional people. You will interview only those household members 15 years old or older who are listed.

Are there any other persons 15 years old or older now living or staying there? (Who have not been listed.)

1 Yes

2 No

CNT2BG

How many other?

*Enter number

MCHILD

I have listed . . . READ NAMES

Have I missed any babies or small children?

1 Yes

2 No

MAWAY

Have I missed anyone who usually lives here but is away now -traveling, at school, or in a hospital?

1 Yes

2 No

Have I missed any lodgers, boarders, or persons you employ who live here?

1 Yes

2 No

MELSE

Have I missed anyone else staying here?

1 Yes

2 No

OWNREN1

What is the name of the person or one of the persons who owns or rents that home?

* Enter line number (1-16) if current HH member Enter (0) if owner(s)/renter(s) not a household member

HHRESP_VERIFY

Are all persons –

- 1 Under 15 years of age
- 2 Non-household members

2 No

NUMJOB

Altogether, how many (jobs/ jobs or businesses) did (you/he/she) have?

1 1 job

2 2-3 jobs

3 4 or more jobs

HRUSL1

How many hours per week (do/does) (name/you) USUALLY work at (your/his/her) (job?/ main job?)

Enter number of hours (00-99) Hours each week

(V) Hours vary each week

HRUSL2

How many hours per week (do/does) (you/he/she) USUALLY work at (your/his/her) other (job/ jobs)?

Enter number of hours (00-99) Hours each week

(V) Hours vary each week

HRFTPT

(Do / Does) (you/he/she) usually work 35 hours or more per week (at (your/his/her) job/in the family business/ at all (your/his/her) jobs combined)?

1 Yes

2 No

3 Hours Vary

HRWANT

(Do / Does) (name/you) want to work a full time workweek of 35 hours or more per week?

1 Yes

2 No

3 Regular hours are full-time

Some people work part time because they cannot find full time work or because business is poor. Others work part time because of family obligations or other personal reasons. What is (name's/your) MAIN reason for working part time?

* Probe if necessary: What is (name's/your) main reason for working part time instead of full time?

- 1 Slack work/business conditions
- 2 Could only find part-time work
- 3 Seasonal work
- 4 Child care problems
- 5 Other family/personal obligations
- 6 Health/medical limitations
- 7 School/training
- 8 Retired/Social Security limit on earnings
- 9 Full-time workweek is less than 35 hours
- 10 Other - specify

HRRSN2

What is the main reason (you/he/she) (do/does) not want to work full time?

- 1 Child care problems
- 2 Other family/personal obligations
- 3 Health/medical limitations
- 4 School/training
- 5 Retired/Social Security limit on earnings
- 6 Full time work week less than 35 hours
- 7 Other - specify

Now I have some questions about the exact number of hours (name/you) worked (THE WEEK BEFORE LAST/LAST WEEK). (THE WEEK BEFORE LAST/LAST WEEK), did (you/he/she) lose or take off any hours from ((his/her) MAIN job/work), for ANY reason such as illness, slack work, vacation, or holiday?

- 1 Yes
- 2 No

HROFF2

How many hours did (name/you) take off?

* Enter number of hours

HROT1

(THE WEEK BEFORE LAST/LAST WEEK), did (name/you) work any overtime or extra hours (at (his/her) MAIN job that / that)(you/he/she) (do/does) not usually work?

- 1 Yes
- 2 No

HROT2

How many ADDITIONAL hours did (you/he/she) work?

[Enter number of hours](#)

HRACT1

**(LAST WEEK/THE WEEK BEFORE LAST), how many hours did (you/he/she)
ACTUALLY work at (your/his/her) (job?/MAIN job?)?**

[Enter number of hours](#)

(00 - 99)

HRACT2

**(THE WEEK BEFORE LAST/LAST WEEK), how many hours did (you/he/she)
ACTUALLY work at (your/his/her) other (job/ jobs?)?**

[Enter number of hours](#)

(00 - 99)

HRRSN3

What is the main reason (name/you) worked less than 35 hours (THE WEEK BEFORE LAST/LAST WEEK)?

- 1 Slack work/business conditions
- 2 Seasonal work
- 3 Job started or ended during week
- 4 Vacation/personal day
- 5 Own illness/injury/medical appointment
- 6 Holiday (legal or religious)
- 7 Child care problems
- 8 Other family/personal obligations
- 9 LaborDispute
- 10 Weather affected job
- 11 School/training
- 12 Civic/Military duty
- 13 Other reason

HRAVL

(THE WEEK BEFORE LAST/LAST WEEK), could (name/you) have worked full time IF the hours had been available?

- 1 Yes
- 2 No

LAYDT Has (name's/your) employer given (you/he/she) a date to return to work? 1 Yes 2 No

LAY6M

(Have / Has) (you/he/she) been given any indication that (you/he/she) will be recalled to work within the next 6 months?

- 1 Yes
- 2 No

LAYAVL

Could (you/he/she) have returned to work (THE WEEK BEFORE LAST/LAST WEEK) IF (you/he/she) had been recalled?

- 1 Yes
- 2 No

LAYAVR Why is that?

- 1 Own temporary illness
- 2 Going to school
- 3 Other

LAYAVS

- ✳ [Enter specific reason](#)

Even though (you/he/she) (expect/expects) to be called back to work, (have/has)

- 1 Yes
- 2 No
- 3 Retired
- 4 Disabled
- 5 Unable to work

(you/he/she) been looking for work during the last 4 weeks?

- 1 Yes
- 2 No

LAYDR1

As of the end of (THE WEEK BEFORE LAST/LAST WEEK), how long had/has (you/he/she) been on layoff?

- 1 Weeks
- 2 Months
- 3 Years

LAYDR2

Do not read to respondent
Enter number of (weeks, months, years)

LAYDR3

We would like to have that in weeks, IF possible, exactly how many weeks had (name/you) been on layoff?

*Enter number of weeks

LAYFT

Is the job from which (name/you) (are / is) on layoff a full time job of 35 hours or more per week?

- 1 Yes
- 2 No

(Have / Has) (name/you) been doing anything to find work during the last 4 weeks?

DIS1 4

Does (your/his/her) disability prevent (you/he/she) from accepting any kind of work during the next six months?

- 1 Yes
- 2 No

DIS2 4

(Do / Does) (name/you) have a disability that prevents (you/he/she) from accepting any kind of work during the next six months?

- 1 Yes
- 2 No

LK

What are all the things (you/he/she) (have/has) done to find work during the last 4 weeks?

* **Do not read answer categories** Enter (0) for no additional answer

- 1 Contact employer directly/interview
- 2 Contacted public employment agency
- 3 Contacted private employment agency
- 4 Contacted friends or relatives
- 5 Contacted school/university employment center
- 6 Sent out resumes/filled out applications
- 7 Checked union/professional registers
- 8 Placed or answered ads
- 9 Other active
- 10 Looked at ads
- 11 Attended job training programs/courses
- 12 Other passive
- 13 Nothing

Can you tell me more about what (he/she) did to search for work?

* **Do not read answer categories** Enter (0) for no additional answer

- 1 Contact employer directly/interview
- 2 Contacted public employment agency

Vivienda

➔ Por favor, conteste las siguientes preguntas sobre la casa, apartamento o casa móvil en la dirección indicada en la etiqueta.

1 ¿Cuál describe mejor este edificio? Incluya todos los apartamentos, pisos, etc. aunque estén desocupados.

- ☐ Una casa móvil
- ☐ Una casa separada de cualquier otra casa
- ☐ Una casa unida a una o más casas
- ☐ Un edificio con 2 apartamentos
- ☐ Un edificio con 3 ó 4 apartamentos
- ☐ Un edificio con 5 a 9 apartamentos
- ☐ Un edificio con 10 a 19 apartamentos
- ☐ Un edificio con 20 a 49 apartamentos
- ☐ Un edificio con 50 apartamentos o más
- ☐ Bote o barco, vehículo recreativo, van, etc.

2 Aproximadamente, ¿cuándo se construyó originalmente este edificio?

☐ 2000 ó después – Especifique el año ➔

- ☐ 1990 a 1999
- ☐ 1980 a 1989
- ☐ 1970 a 1979
- ☐ 1960 a 1969
- ☐ 1950 a 1959
- ☐ 1940 a 1949
- ☐ 1939 ó antes

3 ¿Cuándo se mudó la Persona 1 (listada en la página 2) a esta casa, apartamento o casa móvil?

Mes Año

A Conteste las preguntas 4 a 6 si ésta es una CASA O CASA MÓVIL; de lo contrario, PASE a la pregunta 7a.

4 ¿En cuántas cuerdas está situada esta casa o casa móvil?

- ☐ Menos de una cuerda ➔ PASE a la pregunta 6
- ☐ 1 a 9.9 cuerdas
- ☐ 10 cuerdas o más

5 EN LOS ÚLTIMOS 12 MESES, ¿cuánto fue el total de las ventas realizadas de todos los productos agrícolas de esta propiedad?

- ☐ Cero
- ☐ \$1 a \$999
- ☐ \$1,000 a \$2,499
- ☐ \$2,500 a \$4,999
- ☐ \$5,000 a \$9,999
- ☐ \$10,000 ó más

6 ¿Hay un negocio (tal como una tienda o barbería) u oficina médica en esta propiedad?

- ☐ Sí
- ☐ No

7 a. ¿Cuántas habitaciones separadas hay en esta casa, apartamento o casa móvil? Las habitaciones deben estar separadas por arcos o paredes que se extienden hacia fuera por lo menos seis pulgadas y van desde el piso hasta el techo.

- INCLUYA dormitorios, cocinas, salas, etc.
- NO INCLUYA baños, terrazas, balcones, entradas, pasillos, o sótanos sin terminar.

Número de habitaciones

b. ¿Cuántas de estas habitaciones son dormitorios? Cuento como dormitorios las habitaciones que usted incluiría en un anuncio si esta casa, apartamento o casa móvil estuviera a la venta o para alquiler. Si es un estudio/apartamento sin dormitorios separados, escriba "0".

Número de dormitorios

8 ¿Tiene esta casa, apartamento o casa móvil –

- | | Sí | No |

Vivienda (continuación)

12 ¿Cuántos automóviles, vans, o camiones hay en su casa para uso de los miembros de este hogar? No cuente camiones que puedan cargar más de una tonelada.

- ☐ Ninguno
- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4
- ☐ 5
- ☐ 6 ó más

13 ¿Cuál COMBUSTIBLE es el que MÁS se utiliza para calentar esta casa, apartamento o casa móvil?

- ☐ Gas de una tubería subterránea que sirve al vecindario
- ☐ Gas embotellado, en tanque o petróleo líquido
- ☐ Electricidad
- ☐ Aceite combustible, queroseno, etc.
- ☐ Carbón o coque
- ☐ Leña
- ☐ Energía solar
- ☐ Otro combustible
- ☐ No se utiliza combustible

14 a. EL MES PASADO, ¿cuánto fue el costo de electricidad para esta casa, apartamento o casa móvil?

Costo el mes pasado – Dólares

\$.00

ó

- ☐ Incluido en el alquiler o cuota de condominio
- ☐ No hay cargo o no se utiliza electricidad

b. EL MES PASADO, ¿cuánto fue el costo de gas para esta casa, apartamento o casa móvil?

Costo el mes pasado – Dólares

\$.00

ó

- ☐ Incluido en el alquiler o cuota de condominio
- ☐ Incluido en el pago de electricidad anotado arriba
- ☐ No hay cargo o no se utiliza gas

c. EN LOS ÚLTIMOS 12 MESES, ¿cuánto fue el costo de agua y alcantarillado para esta casa, apartamento o casa móvil? Si ha vivido aquí menos de 12 meses, haga un estimado del costo.

Costo en los últimos 12 meses – Dólares

\$.00

ó

- ☐ Incluido en el alquiler o cuota de condominio
- ☐ No hay cargo

d. EN LOS ÚLTIMOS 12 MESES, ¿cuánto fue el costo de carbón, queroseno, aceite, leña, etc., para esta casa, apartamento o casa móvil? Si ha vivido aquí menos de 12 meses, haga un estimado del costo.

Costo en los últimos 12 meses – Dólares

\$.00

ó

- ☐ Incluido en el alquiler o cuota de condominio
- ☐ No hay cargo o no se utilizan estos combustibles

15 EN LOS ULTIMOS 12 MESES, ¿recibió usted o algún otro miembro de este hogar beneficios del gobierno por medio del Programa de Asistencia Nutricional? NO incluya WIC, ni el Programa de Almuerzos Escolares, ni ayuda de bancos de alimentos.

- ☐ Sí
- ☐ No

16 ¿Es esta casa, apartamento o casa móvil parte de un condominio?

- ☐ Sí → ¿Cuánto es la cuota mensual de condominio? Para inquilinos: conteste sólo si paga la cuota de condominio además del alquiler; de lo contrario, marque el cuadrado "Ninguna".

Cantidad mensual – Dólares

\$.00

ó

- ☐ Ninguna
- ☐ No

17 ¿Es esta casa, apartamento o casa móvil – Marque (X) UNA casilla.

- ☐ Propiedad suya o de alguien en este hogar con una hipoteca o préstamo? Incluya préstamos sobre el valor líquido de la casa.
- ☐ Propiedad suya o de alguien en este hogar libre y sin deuda (sin una hipoteca o préstamo)?
- ☐ Alquilada?
- ☐ Ocupada sin pago de alquiler? → PASE a la sección C

B Conteste las preguntas 18a y b si esta casa, apartamento o casa móvil está ALQUILADA. De lo contrario, PASE a la pregunta 19.

18 a. ¿Cuánto es el alquiler mensual para esta casa, apartamento o casa móvil?

Cantidad mensual – Dólares

\$.00

b. ¿Incluye el alquiler mensual algunas comidas?

- ☐ Sí
- ☐ No

19 ¿Por cuánto cree usted que se vendería esta casa y el terreno, apartamento, o casa móvil y el lote si estuviera para la venta?

\$ _____ .00

20 ¿Cuánto es el total anual de las contribuciones de bienes raíces al CRIM (Centro de Recaudación de Ingresos Municipales) sobre ESTA propiedad?

\$.00

Ó

☐ Ninguno

21 ¿Cuánto es el pago anual de la prima por concepto de seguro contra incendios, riesgos e inundaciones para ESTA propiedad?

\$. . .

Ó

☐ Ninguno

22 a. ¿Tiene usted o algún miembro de este hogar una hipoteca, una escritura de fideicomiso, contrato de compra, o alguna deuda de este tipo sobre ESTA propiedad?

☐ Sí, hipoteca, escritura de fideicomiso,
o alguna deuda de este tipo

☐ Sí, contrato de compra

☐ No → PASE a la pregunta 23a

b. ¿Cuánto es el pago mensual regular de la hipoteca sobre ESTA propiedad?

Incluya sólo el pago de la PRIMERA hipoteca o contrato de compra.

\$.00

Ó

☐ No se requiere ningún pago regular → *PASE a la pregunta 23a*

c. ¿Incluye el pago mensual regular de la hipoteca los pagos de impuestos sobre bienes raíces para ESTA propiedad?

☐ Sí, se incluyen los impuestos en el pago de la hipoteca

☐ No, los impuestos se pagan por separado o no se requieren impuestos

d. ¿Incluye el pago mensual regular de la hipoteca los pagos de la prima por concepto de seguro contra incendios, riesgos e inundaciones para ESTA propiedad?

 Sí, se incluye el seguro en el pago de la hipoteca

☐ No, el seguro se paga por separado, o no se tiene seguro

23 a. ¿Tiene usted o algún otro miembro de este hogar una segunda hipoteca o un préstamo sobre el valor líquido (Home Equity Loan) de ESTA propiedad?

☐ Sí, un préstamo sobre el valor líquido de esta propiedad

☐ Sí, una segunda hipoteca

☐ Sí, una segunda hipoteca y un préstamo sobre el valor líquido de esta propiedad

☐ No → *PASE a la sección D*

b. ¿Cuánto es el pago mensual regular de todas las segundas hipotecas y todos los préstamos sobre el valor líquido de ESTA propiedad?

\$, .00

ó

☐ No se requiere ningún pago regular

D Conteste la pregunta 24 si ésta es una CASA MÓVIL. De lo contrario, PASE a la sección **E**.

24 ¿Cuánto es el total del costo anual de los impuestos a los bienes personales, la renta del lote, los costos de registro o inscripción y los costos de licencias para ESTA casa móvil y su lote? *No incluya los impuestos sobre bienes raíces.*

\$.00

E *Conteste las preguntas sobre la PERSONA 1 en la próxima página si usted listó al menos una persona en la página 2. De lo contrario, PASE a la página 28 para las instrucciones de envío por correo.*

Persona 1

➔ Por favor, copie el nombre de la Persona 1 que aparece en la página 2. Luego, continúe contestando las siguientes preguntas.

Apellido

Nombre

Inicial

7 ¿Dónde nació esta persona?

☐ En los Estados Unidos – *Escriba en letra de molde el nombre del estado.*

☐ Fuera de los Estados Unidos – *Escriba en letra de molde Puerto Rico o el nombre del país extranjero, o de las Islas Vírgenes de los EE.UU., Guam, etc.*

8 ¿Es esta persona ciudadana de los Estados Unidos?

☐ Sí, nació en Puerto Rico → PASE a la pregunta 10a

☐ Sí, nació en un estado de los Estados Unidos, el Distrito de Columbia, Guam, las Islas Vírgenes de los Estados Unidos o las Islas Marianas del Norte

☐ Sí, nació en el extranjero de padre o madre que es ciudadano(a) de los EE.UU.

☐ Sí, es ciudadana de los Estados Unidos por naturalización – *Escriba el año de naturalización*

☐ No, no es ciudadana de los Estados Unidos

9 ¿Cuándo vino esta persona a vivir a Puerto Rico? Si esta persona vino a vivir a Puerto Rico más de una vez, escriba el último año.

Año

10 a. En cualquier momento DURANTE LOS ÚLTIMOS 3 MESES, ¿ha estudiado esta persona en una escuela o universidad? Incluya sólo pre-escolar o pre-kinder, kindergarten, escuela elemental, enseñanza en el hogar y escuela que conduce a un diploma de escuela superior o un título universitario.

☐ No, no ha estudiado durante los últimos 3 meses → PASE a la pregunta 11

☐ Escuela o universidad pública

☐ Escuela o universidad privada o enseñanza en el hogar (home school)

b. ¿A qué grado o nivel escolar asistía esta persona? Marque (X) UNA casilla.

☐ Pre-escolar o pre-kinder

☐ Kindergarten

☐ Grado 1 al 12 – *Especifique grado 1-12*

☐ Estudios universitarios al nivel de bachillerato (freshman a senior)

☐ Escuela graduada o profesional más allá de un bachillerato universitario (por ejemplo, un programa de Maestría o Doctorado o una escuela de medicina o leyes)

11 ¿Cuál es el título o nivel escolar más alto que esta persona ha COMPLETADO? Marque (X) UNA casilla. Si está matriculada actualmente, marque el grado escolar anterior o el título más alto recibido.

NO HA COMPLETADO NINGÚN GRADO

☐ No ha completado ningún grado

PRE-ESCOLAR O PRE-KINDER HASTA GRADO 12

☐ Pre-escolar o pre-kinder

☐ Kindergarten

☐ Grado 1 al 11 – *Especifique grado 1-11*

☐ Grado 12, SIN DIPLOMA

GRADUADO(A) DE ESCUELA SUPERIOR

☐ Diploma de escuela superior

☐ GED o examen equivalente

UNIVERSIDAD O ALGUNOS CRÉDITOS UNIVERSITARIOS

☐ Algunos créditos universitarios, pero menos de 1 año de créditos universitarios

☐ 1 año o más de créditos universitarios, sin título

☐ Título asociado universitario (por ejemplo: AA, AS)

☐ Título de bachillerato universitario (por ejemplo: BA, BS)

DESPUÉS DEL TÍTULO DE BACHILLERATO UNIVERSITARIO

☐ Título de maestría (por ejemplo: MA, MS, MEng, MEd, MSW, MBA)

☐ Título profesional más allá de un título de bachillerato universitario (por ejemplo: MD, DDS, DVM, LLB, JD)

☐ Título de doctorado (por ejemplo: PhD, EdD)

F Conteste la pregunta 12 si esta persona tiene un título de bachillerato universitario o más alto. De lo contrario, PASE a la pregunta 13.

12 Esta pregunta se enfoca en el TÍTULO DE BACHILLERATO UNIVERSITARIO de esta persona. Por favor, escriba en letra de molde el título específico de la concentración de estudio de cualquier TÍTULO DE BACHILLERATO UNIVERSITARIO específico(s) que esta persona recibió. (Por ejemplo: ingeniería química, enseñanza de educación primaria, o psicología organizacional)

13 ¿Cuál es la ascendencia u origen étnico de esta persona?

(Por ejemplo: italiana, jamaicana, africana americana, camboyana, de Cabo Verde, noruega, dominicana, franco-canadiense, haitiana, coreana, libanesa, polaca, nigeriana, mexicana, taiwanesa, ucraniana, entre otras.)

14 a. En su hogar, ¿habla esta persona un idioma que no sea inglés?

☐ Sí

☐ No → PASE a la pregunta 15a

b. ¿Qué idioma es ese?

Por ejemplo: coreano, italiano, español, vietnamés

c. ¿Cuán bien habla esta persona el inglés?

☐ Muy bien

☐ Bien

☐ No bien

☐ No habla inglés

Persona 1 (continuación)

15 a. ¿Vivía esta persona en esta casa o apartamento hace 1 año?

☐ Persona es menor de 1 año de edad → PASE a la pregunta 16

☐ Sí, en esta casa → PASE a la pregunta 16

☐ No, fuera de Puerto Rico y los Estados Unidos – Escriba en letra de molde a continuación el nombre del país extranjero o las Islas Vírgenes de los Estados Unidos, Guam, etc.; luego PASE a la pregunta 16

☐ No, en una casa diferente en Puerto Rico o los Estados Unidos

b. ¿Dónde vivía esta persona hace 1 año?

Dirección

Nombre de urbanización o condominio

Número y nombre de la calle

Nombre de la ciudad, pueblo u oficina de correos

Nombre del municipio o condado de los Estados Unidos

Anote Puerto Rico o el nombre del estado de los Estados Unidos

Código Postal

16 ¿Tiene esta persona cobertura ACTUALMENTE de cualquiera de los siguientes tipos de seguros de salud o planes de cobertura de seguro de salud? Marque “Sí” o “No” para CADA tipo de cobertura en las respuestas a-h.

a. Seguro a través de su patrono o sindicato (unión), actual o previo (de esta persona o de cualquier otro miembro de la familia)

Sí

No

☐

☐

b. Seguro adquirido directamente de una compañía de seguro (por esta persona o por cualquier otro miembro de la familia)

☐

☐

c. Medicare, para personas que tienen 65 años o más, o personas con ciertos impedimentos

☐

☐

d. Medicaid, Medical Assistance, o cualquier otro tipo de plan de asistencia gubernamental para esas personas con un ingreso bajo o incapacidad

☐

☐

e. TRICARE u otro seguro de salud militar

☐

☐

☐

☐

g. Servicio de Salud Indio (Indian Health Service)

☐

☐

h. Cualquier otro tipo de seguro de salud o plan de cobertura de seguro de salud – Especifique

☐

☐

17 a. ¿Es esta persona sorda o tiene él/ella una dificultad seria para oír?

☐ Sí

☐ No

b. ¿Es esta persona ciega o tiene él/ella una dificultad seria para ver aunque lleve puestos espejuelos o lentes?

☐ Sí

☐ No

G Conteste las preguntas 18a – c si esta persona tiene 5 años o más. De lo contrario, PASE a las preguntas para la Persona 2 en la página 12.

18 a. Debido a una condición física, mental o emocional, ¿tiene esta persona una dificultad seria para concentrarse, recordar o tomar decisiones?

☐ Sí

☐ No

b. ¿Tiene esta persona una dificultad seria para caminar o subir las escaleras?

☐ Sí

☐ No

c. ¿Tiene esta persona dificultad para vestirse o bañarse?

☐ Sí

☐ No

H Conteste la pregunta 19 si esta persona tiene 15 años o más. De lo contrario, PASE a las preguntas para la Persona 2 en la página 12.

19 Debido a una condición física, mental o emocional, ¿tiene esta persona dificultad para hacer diligencias sola, tal como ir al consultorio de un médico o ir de compras?

☐ Sí

☐ No

20 ¿Cuál es el estado civil de esta persona?

☐ Casada actualmente

☐ Viuda

☐ Divorciada

☐ Separada

☐ Nunca se ha casado → PASE a la sección I

21 En los PASADOS 12 MESES, ¿esta persona –

Sí

No

a. se casó?

☐

☐

b. enviudó?

☐

☐

c. se divorció?

☐

☐

22 ¿Cuántas veces ha estado casada esta persona?

☐ Una vez

☐ Dos veces

☐ Tres veces o más

23 ¿En qué año se casó la última vez esta persona?

Año

I Conteste la pregunta 24 si esta persona es del sexo femenino y tiene de 15 a 50 años de edad. De lo contrario, PASE a la pregunta 25a.

24 ¿Ha dado a luz esta persona en los últimos 12 meses?

☐ Sí

☐ No

25 a. ¿Tiene esta persona algún nieto menor de 18 años que viva en esta casa o apartamento?

☐ Sí

☐ No → PASE a la pregunta 26

b. ¿Es este abuelo actualmente responsable de la mayoría de las necesidades básicas de algunos de sus nietos menores de 18 años que viven en esta casa o apartamento?

☐ Sí

☐ No → PASE a la pregunta 26

c. ¿Cuánto tiempo hace que este abuelo es responsable de estos nietos? Si este abuelo es responsable económicamente de más de un nieto, conteste la pregunta para el nieto del cual haya sido responsable por más tiempo.

☐ Menos de 6 meses

☐ 6 a 11 meses

☐ 1 ó 2 años

☐ 3 ó 4 años

☐ 5 años o más

26 ¿Ha estado esta persona alguna vez en el servicio militar activo en las Fuerzas Armadas, la Reserva Militar o la Guardia Nacional de los Estados Unidos? Marque (X) UNA casilla.

☐ Nunca estuvo en el servicio militar → PASE a la pregunta 29a

☐ Servicio activo solamente para entrenamiento de la Reserva Militar o la Guardia Nacional → PASE a la pregunta 28a

☐ En servicio activo ahora

☐ En servicio activo en el pasado, pero no ahora

Persona 1 (continuación)

27 ¿Cuándo estuvo esta persona en servicio militar activo en las Fuerzas Armadas de los Estados Unidos? Marque (X) una casilla para CADA período durante el cual esta persona estuvo en servicio militar, aunque fuera sólo por parte del período.

- ☐ Septiembre del 2001 ó después
- ☐ Agosto del 1990 a agosto del 2001 (incluyendo la Guerra del Golfo Pérsico)
- ☐ Mayo del 1975 a julio del 1990
- ☐ Época de Vietnam (agosto del 1964 a abril del 1975)
- ☐ Febrero del 1955 a julio del 1964
- ☐ Guerra de Corea (julio del 1950 a enero del 1955)
- ☐ Enero del 1947 a junio del 1950
- ☐ Segunda Guerra Mundial (diciembre del 1941 a diciembre del 1946)
- ☐ Noviembre del 1941 ó antes

28 a. ¿Tiene esta persona una clasificación de incapacidad de la VA relacionada con el servicio?

- ☐ Sí (tal como 0%, 10%, 20%, ..., 100%)
- ☐ No → PASE a la pregunta 29a

b. ¿Qué por ciento de incapacidad relacionada con el servicio militar tiene esta persona?

- ☐ 0 por ciento
- ☐ 10 ó 20 por ciento
- ☐ 30 ó 40 por ciento
- ☐ 50 ó 60 por ciento
- ☐ 70 por ciento o más

29 a. LA SEMANA PASADA, ¿hizo esta persona algún trabajo por paga en un empleo (o negocio)?

- ☐ Sí → PASE a la pregunta 30
- ☐ No – No trabajó (o está retirada)

b. LA SEMANA PASADA, ¿hizo esta persona CUALQUIER trabajo por paga, incluso aunque fuese por una hora?

- ☐ Sí
- ☐ No → PASE a la pregunta 35a

30 ¿En qué lugar trabajó esta persona LA SEMANA PASADA? Si esta persona trabajó en más de un lugar, escriba en letra de molde la dirección donde él o ella trabajó la mayor parte de la semana.

a. Dirección
Nombre de urbanización o condominio
Número y nombre de la calle

Si no sabe la dirección exacta, dé una descripción de la localización, tal como el nombre del edificio, calle o intersección más cercana.

b. Nombre de la ciudad, pueblo u oficina de correos

c. ¿Está localizado el lugar de trabajo dentro de los límites de esa ciudad o pueblo?

- ☐ Sí
- ☐ No, fuera de los límites de la ciudad/pueblo

d. Nombre del municipio o condado de los Estados Unidos

e. Anote Puerto Rico o el nombre del estado de los Estados Unidos o país extranjero

f. Código Postal

31 ¿Cómo llegó usualmente esta persona al trabajo LA SEMANA PASADA? Si esta persona usualmente utilizó más de un medio de transportación durante el viaje, marque (X) la casilla correspondiente al que utilizó por más distancia.

- ☒ Automóvil, camión o van
- ☐ Taxi
- ☐ Autobús o trolebús
- ☐ Motora
- ☐ Carro público
- ☐ Bicicleta
- ☐ Tren urbano
- ☐ Caminó
- ☐ Ferrocarril
- ☐ Trabajó en el hogar → PASE a la pregunta 39a
- ☐ Lancha (ferry)
- ☐ Otro método

J Conteste la pregunta 32 si marcó "Automóvil, camión o van" en la pregunta 31. De lo contrario, PASE a la pregunta 33.

32 ¿Cuántas personas, incluyendo a esta persona, usualmente viajaron al trabajo en el automóvil, camión o van LA SEMANA PASADA?

Persona(s)

33 ¿A qué hora usualmente salía esta persona de su hogar para ir al trabajo LA SEMANA PASADA?

Hora

Minutos

☐ a.m.

☐ p.m.

34 ¿Cuántos minutos le tomó a esta persona usualmente ir de su hogar al trabajo LA SEMANA PASADA?

Minutos

K Conteste las preguntas 35 – 38 si esta persona NO trabajó la semana pasada. De lo contrario, PASE a la pregunta 39a.

35 a. LA SEMANA PASADA, ¿estuvo esta persona suspendida (on layoff) o en cesantía de un empleo?

- ☐ Sí → PASE a la pregunta 35c
- ☐ No

b. LA SEMANA PASADA, ¿estuvo esta persona ausente TEMPORERAMENTE de su empleo o negocio?

- ☐ Sí, de vacaciones, enfermedad temporera, licencia por maternidad, otras razones personales o relacionadas con la familia, mal tiempo, etc. → PASE a la pregunta 38
- ☐ No → PASE a la pregunta 36

c. ¿Se le ha informado a esta persona que será llamada de nuevo a trabajar dentro de los próximos 6 meses O se le ha dado una fecha para regresar al trabajo?

- ☐ Sí → PASE a la pregunta 37
- ☐ No

36 Durante las ÚLTIMAS 4 SEMANAS, ¿ha estado esta persona buscando trabajo ACTIVAMENTE?

- ☐ Sí
- ☐ No → PASE a la pregunta 38

37 LA SEMANA PASADA, ¿hubiera podido esta persona comenzar un empleo si se le hubiera ofrecido uno, o hubiera podido regresar al trabajo si se le hubiera llamado de nuevo?

- ☐ Sí, hubiera podido ir a trabajar
- ☐ No, debido a una enfermedad temporera propia
- ☐ No, debido a otras razones (en la escuela, etc.)

38 ¿Cuándo trabajó esta persona por última vez, aunque fuera por unos pocos días?

- ☐ En los últimos 12 meses
- ☐ Hace 1 a 5 años → PASE a la sección L
- ☐ Hace más de 5 años o nunca trabajó → PASE a la pregunta 47

Persona 1 (continuación)

- 39** a. ¿Durante los **ÚLTIMOS 12 MESES** (52 semanas), ¿trabajó esta persona 50 semanas o más? Incluya tiempo libre pagado como trabajo.

☐ Sí → *PASE a la pregunta 40*

☐ No

- b. ¿Cuántas semanas trabajó esta persona aunque fuera unas cuantas horas, incluso vacaciones pagadas, licencia por enfermedad pagada y servicio militar?**

- ☐ 50 a 52 semanas
- ☐ 48 a 49 semanas
- ☐ 40 a 47 semanas
- ☐ 27 a 39 semanas
- ☐ 14 a 26 semanas
- ☐ 13 semanas o menos

- 40** En las **SEMANAS TRABAJADAS** durante los **ÚLTIMOS 12 MESES**, ¿cuántas horas trabajó usualmente esta persona cada **SEMANA**?
Horas usualmente trabajadas cada SEMANA

33

L Conteste las preguntas 41 – 46 si esta persona trabajó durante los últimos 5 años. De lo contrario, PASE a la pregunta 47.

41-46 ACTIVIDAD DE TRABAJO ACTUAL O LA MÁS RECIENTE. *Describe en forma clara la actividad principal de esta persona en su empleo o negocio la semana pasada. Si esta persona tenía más de un empleo, describe el empleo en el cual la persona trabajó más horas. Si esta persona no tenía empleo la semana pasada, dé la información correspondiente a su empleo o negocio más reciente.*

- 41** ¿Era esta persona – Marque (X) UNA casilla.

- ☐ empleada de una empresa o un negocio **PRIVADO CON FINES DE LUCRO** o de un individuo por paga, por salario o comisiones?
- ☐ empleada de una organización **PRIVADA SIN FINES DE LUCRO** que no requiere el pago de impuestos, o de una organización de caridad?
- ☐ empleada del **GOBIERNO** local (ciudad, condado, municipio, etc.)?
- ☐ empleada del **GOBIERNO** estatal?
- ☐ empleada del **GOBIERNO** federal?
- ☐ empleada **POR CUENTA PROPIA** en su negocio, práctica profesional o finca **NO INCORPORADA**?
- ☐ empleada **POR CUENTA PROPIA** en su negocio, práctica profesional o finca **INCORPORADA**?
- ☐ trabajador(a) **SIN PAGA** en un negocio o finca de la familia?

- 42** ¿Para quién trabajaba esta persona?

Si está ahora en servicio activo en las Fuerzas Armadas, marque (X) esta casilla y escriba en letra de molde el nombre de la rama de las Fuerzas Armadas. → ☐

Nombre de la compañía, negocio u otro patrono

- 43** ¿Qué tipo de negocio o industria era éste(a)?
 Describa la actividad en el lugar de empleo.
 (Por ejemplo: hospital, publicación de periódicos,
 casa de ventas por catálogo, manufactura de
 motores de automóviles, banco)

- 44** ¿Es éste(a) principalmente de –
Marque (X) UNA casilla.

- ☐ manufactura?
- ☐ comercio al por mayor?
- ☐ comercio al detal?
- ☐ otro (agricultura, construcción, servicio, gobierno, etc.)?

- 45 ¿Qué tipo de trabajo hacía esta persona?**
(Por ejemplo: enfermera graduada, gerente de personal, supervisor del departamento de encargos, secretaria, contable)

- 46** ¿Cuáles eran las actividades o responsabilidades más importantes de esta persona? (Por ejemplo: cuidar pacientes, dirigir políticas de contratación, supervisar personal del departamento de encargos, escribir en computadora y archivar, reconciliar registros financieros)

- 47** INGRESO EN LOS ÚLTIMOS 12 MESES.

Marque (X) la casilla "Sí" por cada tipo de ingreso que recibió y anote el mejor estimado de la CANTIDAD TOTAL recibida durante los ÚLTIMOS 12 MESES. (NOTA: Los "últimos 12 meses" es el período desde la fecha de hoy hace un año hasta hoy.)

Marque (X) la casilla "No" para mostrar los tipos de ingresos NO recibidos.

Si el ingreso neto fue una pérdida, marque el cuadrado "Pérdida" a la derecha de la cantidad en dólares.

Para ingreso recibido en conjunto, informe la parte que le corresponde a cada persona; o, si eso no es posible, informe la cantidad total bajo una sola persona y marque el cuadrado "No" para la otra persona.

- a. Jornales, sueldos/salarios, comisiones, bonos o propinas de todos los empleos.**
Informe la cantidad antes de aplicarse las deducciones por impuestos, bonos, cuotas y otras cosas.

☐ Sí → \$, , .00
☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- b. Ingreso de empleo por cuenta propia en su negocio no agrícola o finca comercial, ya sea como propietario único o en sociedad.**
Informe el ingreso NETO después de descontar los gastos de negocio.

☐ Sí → \$, , .00 ☐

No CANTIDAD TOTAL en los últimos 12 MESES Pérdida

- c. Intereses, dividendos, ingreso neto por rentas, ingreso por derechos de autor, o ingreso por herencias y fideicomisos.** *Informe aun cantidades pequeñas acreditadas a una cuenta.*

☐ Sí → \$.00

☐ No ☐ Pérdida

CANTIDAD TOTAL en los últimos 12 MESES

- d. Seguro Social o retiro para personal de los ferrocarriles.**

☐ Sí →

☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- e. Seguridad de Ingreso Suplementario (SSI).**

☒ Sí → ☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- f. Cualquier pago de asistencia o bienestar público (*welfare*) de la oficina de bienestar estatal o local.**

☐ Sí → ☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- g. Pensión por retiro, pensión para viudos(as) y dependientes de fallecidos, o pensión por incapacidad. NO incluya Seguro Social.**

☐ Sí →

☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- h. Alguna otra fuente de ingreso recibido regularmente, tal como pagos de la Administración de Veteranos (VA), compensación por desempleo, pensión para hijos menores, pensión alimenticia, o pensión de su ex pareja. NO incluya pagos de mayor cantidad recibidos una sola vez, tal como dinero de una herencia o venta de una casa.**

☐ Sí →

☐ No

CANTIDAD TOTAL en los últimos 12 MESES

- 48** ¿Cuál fue el ingreso total de esta persona durante los **ÚLTIMOS 12 MESES**? *Sume las cantidades anotadas en las preguntas 47a – 47h; reste cualquier pérdida. Si el ingreso neto fue una pérdida, anote la cantidad y marque (X) la casilla "Pérdida" al lado de la cantidad.*

☐ Ninguno \$, .00 ☐ Pérdida

CANTIDAD TOTAL en los últimos 12 MESES

2013 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Unrelated individuals 15 years and over	(X)	(X)	56.7%	+/-1.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at http://www.census.gov/acs/www/Downloads/methodology/content_test/P6a_Employment_Status.pdf, and the "Evaluation Report Covering Weeks Worked" at http://www.census.gov/acs/www/Downloads/methodology/content_test/P6b_Weeks_Worked_Final_Report.pdf. Additional information can also be found at <http://www.census.gov/people/laborforce/>.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Questions for "interest or dividends," "net rental income" and "royalties, estates or trusts" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Prior to 2013 these questions were asked in combination, "interest, dividends, net rental income, royalties, estates, or trusts."

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Questions for "wage and salary" and "tips, bonuses and commissions" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Prior to 2013 these questions were asked in combination, "wages, salary, tips, bonuses and commissions."

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at http://www.census.gov/acs/www/Downloads/methodology/content_test/P6a_Employment_Status.pdf, and the "Evaluation Report Covering Weeks Worked" at http://www.census.gov/acs/www/Downloads/methodology/content_test/P6b_Weeks_Worked_Final_Report.pdf. Additional information can also be found at <http://www.census.gov/people/laborforce/>.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB)

definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

20 to 29 percent	+/-0.3
30 percent or more	+/-0.2
\$50,000 to \$74,999	+/-0.4
Less than 20 percent	+/-0.3
20 to 29 percent	+/-0.2
30 percent or more	+/-0.1
\$75,000 or more	+/-0.3
Less than 20 percent	+/-0.3
20 to 29 percent	+/-0.2
30 percent or more	+/-0.1
Zero or negative income	+/-0.7
No cash rent	+/-1.2

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

For occupied housing units and renter-occupied housing units, the median monthly housing costs excludes renter-occupied housing units for which no cash rent is paid.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Tables for Geographical Mobility by Residence 1 Year Ago in Puerto Rico are only available for Puerto Rico; Municipios; Places; Combined Statistical Areas; Metropolitan and Micropolitan Statistical Areas, and their associated Principal Cities.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

MEDIAN HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2013 INFLATION-ADJUSTED DOLLARS)

Universe: Households

2013 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

	Puerto Rico	
	Estimate	Margin of Error
Median household income in the past 12 months (in 2013 inflation-adjusted dollars)	19,183	+/-313

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

No Social Security income	731,406	+/-9,397

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

\$60,000 to \$74,999	3,329	+/-888
\$75,000 to \$99,999	2,268	+/-725
\$100,000 to \$124,999	873	+/-380
\$125,000 to \$149,999	363	+/-382
\$150,000 to \$199,999	573	+/-418
\$200,000 or more	359	+/-275

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

\$200,000 or more	277	+/-220

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

	Estimate	Margin of Error
Per capita income in the past 12 months (in 2013 inflation-adjusted dollars)	11,208	+/-205

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Questions for "wage and salary" and "tips, bonuses and commissions" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Prior to 2013 these questions were asked in combination, "wages, salary, tips, bonuses and commissions."

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

	Puerto Rico	
	Estimate	Margin of Error
Median earnings in the past 12 months (in 2013 inflation-adjusted dollars) --		
Total:	16,609	+/-176
Male	16,583	+/-213
Female	16,645	+/-288

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Questions for "wage and salary" and "tips, bonuses and commissions" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Questions for "wage and salary" and "tips, bonuses and commissions" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Prior to 2013 these questions were asked in combination, "wages, salary, tips, bonuses and commissions."

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

	Puerto Rico	
	Estimate	Margin of Error
\$100,000 or more	43	+/-72

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Questions for "wage and salary" and "tips, bonuses and commissions" were asked separately for the first time during non-response follow-up via Computer Assisted Telephone Interview (CATI) and Computer Assisted Personal Interview (CAPI). Prior to 2013 these questions were asked in combination, "wages, salary, tips, bonuses and commissions."

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Construction and extraction occupations	17,057	+/-48,616
Installation, maintenance, and repair occupations	21,375	+/-3,150
Production, transportation, and material moving occupations:	15,623	+/-688
Production occupations	16,152	+/-771
Transportation occupations	9,981	+/-2,424
Material moving occupations	14,226	+/-1,417

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Self-employed in own incorporated business workers	24,579	+/-8,480
Private not-for-profit wage and salary workers	17,917	+/-1,250
Local government workers	19,860	+/-1,036
State government workers	25,741	+/-717
Federal government workers	29,977	+/-5,757
Self-employed in own not incorporated business workers and unpaid family workers	10,174	+/-1,621

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

The Class of Worker status "unpaid family workers" may have earnings. Earnings reflect any earnings from all jobs held during the 12 months prior to the ACS interview. The Class of Worker status reflects the job or business held the week prior to the ACS interview, or the last job held by the respondent.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Value \$250,000 to \$499,999	17,055	+/-1,972
Value \$500,000 or more	5,956	+/-1,236

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to a DSL, cable, fiberoptic, mobile broadband, satellite, or fixed wireless subscription. These types of subscriptions are also sometimes referred to "high-speed Internet". The category "Without an Internet subscription" includes those who accessed the Internet without a subscription and also those with no Internet access at all.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a data plan for a mobile phone, a cable modem, DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

C08519

MEANS OF TRANSPORTATION TO WORK BY WORKERS' EARNINGS IN THE PAST 12 MONTHS (IN 2013 INFLATION-ADJUSTED DOLLARS) FOR WORKPLACE GEOGRAPHY

Universe: Workers 16 years and over with earnings

2013 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

	Puerto Rico	
	Estimate	Margin of Error
Total:	1,026,860	+/-11,461
\$1 to \$9,999 or less	237,882	+/-7,831
\$10,000 to \$14,999	167,910	+/-7,000
\$15,000 to \$24,999	289,272	+/-7,882
\$25,000 to \$34,999	132,839	+/-7,524
\$35,000 to \$49,999	93,610	+/-6,117
\$50,000 to \$64,999	42,396	+/-3,356
\$65,000 to \$74,999	17,812	+/-2,142
\$75,000 or more	45,139	+/-3,447
Car, truck, or van - drove alone:	835,537	+/-12,465
\$1 to \$9,999 or less	176,939	+/-7,386
\$10,000 to \$14,999	132,769	+/-5,710
\$15,000 to \$24,999	242,310	+/-7,476
\$25,000 to \$34,999	112,673	+/-6,455
\$35,000 to \$49,999	81,746	+/-5,780
\$50,000 to \$64,999	35,523	+/-2,944
\$65,000 to \$74,999	15,382	+/-2,174
\$75,000 or more	38,195	+/-3,186
Car, truck, or van - carpooled:	90,760	+/-5,511
\$1 to \$9,999 or less	21,254	+/-2,558
\$10,000 to \$14,999	13,976	+/-1,840
\$15,000 to \$24,999	24,747	+/-2,463
\$25,000 to \$34,999	12,888	+/-2,148
\$35,000 to \$49,999	8,232	+/-1,200
\$50,000 to \$64,999	3,854	+/-1,138
\$65,000 to \$74,999	1,725	+/-608
\$75,000 or more	4,084	+/-1,189
Public transportation (excluding taxicab):	25,612	+/-2,696
\$1 to \$9,999 or less	9,714	+/-1,695
\$10,000 to \$14,999	5,814	+/-1,508
\$15,000 to \$24,999	6,759	+/-1,555
\$25,000 to \$34,999	1,671	+/-553
\$35,000 to \$49,999	649	+/-391
\$50,000 to \$64,999	579	+/-376
\$65,000 to \$74,999	136	+/-169
\$75,000 or more	290	+/-245

	Puerto Rico	
	Estimate	Margin of Error
Taxicab, motorcycle, bicycle, walked, or other means:	52,363	+/-3,956
\$1 to \$9,999 or loss	21,479	+/-2,488
\$10,000 to \$14,999	12,227	+/-2,038
\$15,000 to \$24,999	11,252	+/-1,659
\$25,000 to \$34,999	3,318	+/-953
\$35,000 to \$49,999	987	+/-437
\$50,000 to \$64,999	1,227	+/-631
\$65,000 to \$74,999	278	+/-225
\$75,000 or more	1,595	+/-621
Worked at home:	22,588	+/-2,683
\$1 to \$9,999 or loss	8,496	+/-1,554
\$10,000 to \$14,999	3,124	+/-829
\$15,000 to \$24,999	4,204	+/-1,136
\$25,000 to \$34,999	2,289	+/-893
\$35,000 to \$49,999	1,996	+/-671
\$50,000 to \$64,999	1,213	+/-534
\$65,000 to \$74,999	291	+/-272
\$75,000 or more	975	+/-559

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

Tables for Workplace Geography are only available for States; Counties; Places; County Subdivisions in selected states (CT, ME, MA, MI, MN, NH, NJ, NY, PA, RI, VT, WI); Combined Statistical Areas; Metropolitan and Micropolitan Statistical Areas, and their associated Metropolitan Divisions and Principal Cities; Combined New England City and Town Areas; New England City and Town Areas, and their associated Divisions and Principal Cities. Tables B08601, B08602, B08603, and B08604 are also available for Place parts and County Subdivision parts for the 5-year ACS datasets.

These tabulations are produced to provide estimates of workers at the location of their workplace. Estimates of counts of workers at the workplace may differ from those of other programs because of variations in definitions, coverage, methods of collection, reference periods, and estimation procedures. The ACS is a household survey which provides data that pertains to individuals, families, and households.

Workers include members of the Armed Forces and civilians who were at work last week.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-

ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
