AR 400 STEEL NON-SPINNING BLADE

- » Does not need sharpening
 - Cuts at or below ground level
 - Cuts in rock, gravel and dirt
- » With the Marshall Tree Saw non-spinning blade, you will not have flying debris as compared to spinning blade saws. Marshall Tree Saw is safe to work around for man and animals
- » Simple fields maintenance - grease only twice a day
- » Built to withstand the toughest of work in the woods
- » Available built-in sprayer tank system
