

tia[®] Link

The certified middleware that allows providers of DMS or ECM systems to fully tap into the SAP data and document world. All SAP document management scenarios can be fully mapped with the three tia[®] Link interfaces ArchiveLink[®], ILM and CMIS. tia[®] Link thus makes DMS and ECM providers ready for the SAP world on-premises and in the cloud environment.

At a glance

- SAP certified middleware for ECM, DMS and archive systems
- World's leading solution for SAP ArchiveLink[®] interface certification
- Fully implemented in Java
- kgs libraries can be run on all platforms (Requirement: Java VM > 11 to be available)
- Multithreading capable
- Multi-instance capable
- Compatible with all popular web servers (Tomcat, BEA, Oracle, Websphere, etc.)
- Supports ArchiveLink[®] and *new* CMIS

Benefits

- Quick and easy SAP certification for third party vendors
- Lean Architecture
- SAP expertise and SAP knowledge are not required
- Support is also available for SAP certification of solutions
- Possibility to transfer metadata from SAP
- Integration of any ECM, DMS and archive systems at a fixed price in the SAP world standard
- Consumption-based billing model

tia[®] Link Interface enables fast and easy SAP certification. The SAP ArchiveLink[®] interface is a communication interface between the application and external components (storage systems or desktop applications) that is integrated into the basic component of the SAP system. CMIS makes ready for SAP cloud scenarios.

About kgs

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been a trusted digital archiving specialist for top companies worldwide for over 25 years. Data and attachments from SAP, as well as attachments from other leading applications such as SharePoint, are migrated and archived using efficient and streamlined software. Under the brand "tia[®]" – the intelligent archive – kgs brings together all product modules into a unified vision of an intelligent document and attachment archive. tia[®] represents autonomous archiving, is compatible with various applications, storage solutions, and cloud technologies, and provides companies with a Single Point of Truth (SPoT) for document access. Since 2005, kgs has been globally certifying ArchiveLink[®] and ILM interfaces for SAP and is recognized as a SAP Value Added Solutions Partner. Additionally, the tia[®] CMIS interface became the first in the market to receive official SAP certification in 2022.
