

tia[®] Viewer

tia[®] Viewer is the software application for viewing PDF and image documents in the Internet browser. It is operated and managed as a servlet within a web server runtime environment. Important annotations for everyday work can be easily added with the viewer.

At a glance

- Browser-based viewer with annotation function
- Supported formats: PDF, TIFF, JPEG
- Simple intergration into the existing SAP-landscape
- Two language versions (English and German) available in the standard version; other languages on request

Benefits

- No need to install anything on local workstations
- View documents either directly in the browser or in the SAP workspace
- Extensive annotation functions
- Annotations are stored in the archive as separate document component

Highlights

- Display PDF and image documents
- Multiple configuration within one Servlet
- Customizing in the SAP central instance
- Call based on content repositories / used document type via overlay
- Annotations via overlay
- Can be used with any SAP ArchiveLink[®] certified archive system
- Authentication via e.g. Azure AD
- Integration Web-Outlook email dispatch

tia[®] Viewer

About kgs

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been a trusted digital archiving specialist for top companies worldwide for over 25 years. Data and attachments from SAP, as well as attachments from other leading applications such as SharePoint, are migrated and archived using efficient and streamlined software. Under the brand "tia[®]" – the intelligent archive – kgs brings together all product modules into a unified vision of an intelligent document and attachment archive. tia[®] represents autonomous archiving, is compatible with various applications, storage solutions, and cloud technologies, and provides companies with a Single Point of Truth (SPoT) for document access. Since 2005, kgs has been globally certifying ArchiveLink[®] and ILM interfaces for SAP and is recognized as a SAP Value Added Solutions Partner. Additionally, the tia[®] CMIS interface became the first in the market to receive official SAP certification in 2022.
