

tia[®] ZADOC

ZADOC is an SAP add-on that also makes non-SAP documents usable in SAP. The product ideally complements an SAP archive such as the tia[®] Content Server with ECM or document management functionalities that the SAP ArchiveLink[®] interface does not take into account.

At a glance

- Extension of SAP ArchiveLink[®] to attribution
- Flexible structure of SAP-based document archiving scenarios
- Automated linking of documents with several SAP business objects
- Supply of functions as transactions
- Full auditing rights over SAP authorization objects

Benefits

- High speed access: Original documents can not only be made visible on application transactions, but are also immediately accessible on the ZADOC user interface
- Attribute-supported document access: documents are linked and found on the basis of freely selectable attribute values
- Search over all objects possible
- Management of non-SAP documents

Highlights

- Free selection of attributes
- Integration of ArchiveLink[®]
- Ad-hoc and batch archiving
- Archiving and search function for non-SAP documents
- Fully integrated into the SAP system landscape
- Management of documents without SAP reference
- Automated linking of documents to several SAP business objects
- Versioning without SAP DMS

tia® ZADOC

About kgs

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been a trusted digital archiving specialist for top companies worldwide for over 25 years. Data and attachments from SAP, as well as attachments from other leading applications such as SharePoint, are migrated and archived using efficient and streamlined software. Under the brand "tia®" – the intelligent archive – kgs brings together all product modules into a unified vision of an intelligent document and attachment archive. tia® represents autonomous archiving, is compatible with various applications, storage solutions, and cloud technologies, and provides companies with a Single Point of Truth (SPoT) for document access. Since 2005, kgs has been globally certifying ArchiveLink® and ILM interfaces for SAP and is recognized as a SAP Value Added Solutions Partner. Additionally, the tia® CMIS interface became the first in the market to receive official SAP certification in 2022.
