

the intelligent archiving partner for SAP enterprises

kgs reduces costs, ensures compliance, and integrates seamlessly with SAP and Microsoft SharePoint – without the complexity of traditional ECM systems.

why enterprises choose kgs?

Cost

Achieve up to 75 percent lower annual archiving maintenance costs compared to OpenText.

Compliance

Secure, audit-proof archiving trusted by leading companies like Lufthansa and Kärcher.

Simplicity

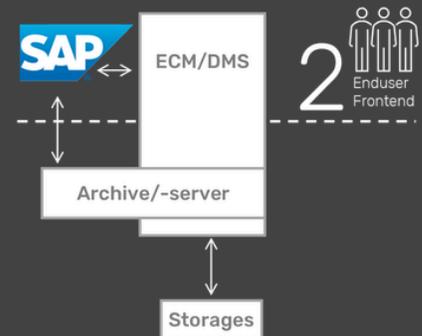

Certified SAP ArchiveLink integration, Microsoft SharePoint support, cloud-ready deployment.

Performance

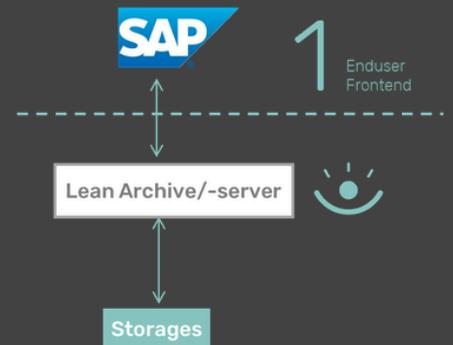

Handles high volumes without system impact (e.g. 300M+ documents at scale).

what we do

Replacing complex, expensive ECM/DMS ..

.. by implementing a lean, cost-effective SAP archiving solution.

*"The kgs solution is lean and fast, and integrates seamlessly with any hyperscaler. **It eliminates the heavy overhead of legacy systems, including separate databases and complex administration.**"*

Stefan Hummel, Squad Manager SAP Technology

500+ customers
across all industries rely on kgs

tia® Content Server connects seamlessly to RISE and GROW

Flexible Deployment: Hybrid or Cloud

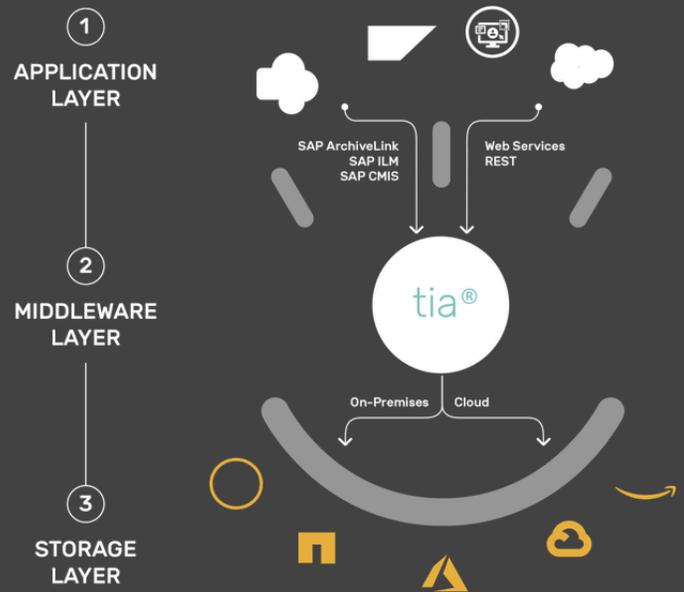

We help customers adopt hybrid models to ensure a smooth, practical transition to cloud archiving—especially with SAP S/4HANA.

Cloud-Native Setup with Certified SAP CMIS Interface

kgs was the first to offer an SAP-certified CMIS interface, providing the flexibility and security SAP teams need to manage archives confidently in any environment.

Replace ECM

Our customers have shown that lean, intelligent SAP archiving from kgs fully replaces costly and overly complex ECM and DMS systems. The ROI is clear, and migrations are completed seamlessly without disrupting operations.

is kgs the right partner for you?

- Is SAP a core application in your business?
- Are you seeking an alternative to complex, costly document management systems?
- Do you want to reduce archiving costs?
- Are you preparing for SAP S/4HANA and evaluating your archiving strategy?

Learn how we help SAP customers simplify archiving and save costs. Let's talk about your journey to efficient, cloud-ready archiving.
