

Copyright and Content Use Policy

Support Hub materials are protected by copyright and other intellectual property rights.

Ownership

Unless stated otherwise, original Hub text, audio, video, worksheets, design and branding belong to Space to Breathe Therapy or are used with permission. Contributor content remains subject to the rights and licence agreed with that contributor.

What Members May Do

Members may view and use content for their own personal, non-commercial wellbeing and learning. A downloadable worksheet may be printed or saved for the member's own use. Any wider permission shown on a particular resource takes priority for that resource.

What Members May Not Do

Do not copy, alter, translate, record, upload, republish, sell, teach from, distribute or remove credits from Hub content without written permission. Buying membership does not transfer ownership of the content.

Quoting and Linking

A short quotation may sometimes be used where UK law allows, provided it is fair, proportionate and properly credited. Linking to a public Hub page is welcome, but links must not falsely suggest endorsement or reveal gated content.

Third-party Content

Some materials may link to or acknowledge external organisations and creators. Their own terms and copyright rules apply. Inclusion does not transfer their rights to Space to Breathe Therapy or to members.

Permission and Concerns

For permission requests or to report possible infringement, contact us with the title, link and details of the intended use. We will review genuine concerns promptly.
