Waldinger Group:
Your Wellmark pharmacy benefits

The Blue Rx Value Plus drug list will help you understand how your prescriptions are covered. Use the steps below before your coverage begins and whenever you receive a new prescription.

Check your medication coverage and costs

1. **Scan the QR code to access the Blue Rx Value Plus Formulary**
2. **Search for your medication**
   Enter the medication name. If you use a brand-name drug, check whether a generic option is listed.
3. **Review the results**
   Confirm whether the drug is covered, its tier and whether requirements apply.
4. **Talk with your care team**
   If a medication is not listed, costs more than expected or has a coverage requirement, contact your doctor or pharmacist to discuss options before your next refill.

Important reminders

- **The drug list can change.** Coverage, tiers and requirements may be updated during the year. Check the formulary regularly and before filling a new prescription.
- **You may be notified of coverage changes.** In some cases, Wellmark may notify members of coverage changes that affect their prescriptions. Not all changes are communicated individually. Check the formulary for current coverage.
- **Talk with your doctor or pharmacist.** They can help you review covered alternatives or determine whether an approval request may be appropriate.

Create your myWellmark account today at myWellmark.com. You can also download the free myWellmark app for on-the-go tools, cost information and resources to help you stay healthy.

Need help? Call Wellmark Customer Service at the number on the back of your Wellmark member ID card.

Please note: If you are not currently enrolled in a Wellmark health plan, you will not be able to create a MyWellmark account until your coverage becomes effective on January 1, 2027. Once your coverage is active, you can register and access your member resources through MyWellmark.
