

First Class Windows. **The Window World 6000 Series Double-Hung**

Top-quality windows have huge impact on a home's comfort, style and functionality. **Window World's 6000-Series** vinyl windows stand out for their superb weather resistance and low-emissivity (low-E) coatings that improve efficiency by reflecting heat but letting in light. Both the top and the bottom sash of the double-hung windows can be opened for maximum ventilation, and both tilt for easy cleaning. As for style, the simulated divided lites and the brushed-nickel hardware give a traditional look, while the trendy black interior and the exterior finish are eye-catching on both sides of the window; a dozen other colors are available.
