

# HOME RENO AWARD WINNER

## CUSTOMIZABLE ENTRY DOORS

The entry door is like the smile of the home, which is why replacing a worn-out door does so much for curb appeal. Our experts are big fans of fiberglass doors, because they combine durability with the look of authentic wood. Window World's Award Winning line of fiberglass doors showcase that excellence and come in hundreds of styles.

**LAB RESULTS:** As a GH Seal holder, Window World's Fiberglass Entry Doors have been through extensive in-Lab performance evaluations by our team of engineers. The doors proved resistant to cold and heat for exceptional energy efficiency, delivering up to four times the insulating value of wood. They're more durable than steel doors, and our experts like the fact that they can be painted and stained, or you can choose from the extensive selection of factory finishes. As a full-service exterior remodeler, Window World provides design consultations, installation, and ongoing service support via its limited lifetime warranty.
