Where can I use AbsolutePay?

We aim to make AbsolutePay available everywhere:

- You can register and send crypto assets, money and pay with AbsolutePay from and to most countries around the world.
- You can open a AbsolutePay platform account irrespective of the country you live in or your nationality.
- Virtual Accounts, Pro Accounts and Premium Pro Accounts are subject to certain limitations due to the nature of the financial services provided in fiat.

Platform account

You can create a platform account to load, send, and receive crypto assets with other AbsolutePay users, subject to our terms and conditions. Additionally, you have the option to withdraw your crypto assets to your personal wallet at any time.

To link a debit card to your account and access features like crypto-currency exchange, card payments, ATM withdrawals, and other fiat transactions, you will need to open either a Virtual Account, Pro Account, or Premium Pro Account, depending on what features you want.

Countries and regions we don't support for opening Virtual Accounts, Pro Accounts and Premium Pro Accounts
