Report Details

All fiat values and prices are in USD unless otherwise stated. Capital gains on assets held for 12 months or more are classified as 'Long Term'. Capital gains on assets held for less than 12 months are classified as 'Short Term'. Trading between cryptocurrencies is treated as a taxable event. Capital gains on foreign exchange conversion are shown.

The 'Cost' column represents the cost base of the capital gains tax (CGT) event; this includes any fees associated with the acquisition and disposal of the underlying asset (where applicable). The 'Proceeds' column represents the capital proceeds received as a result of disposing of the underlying asset; this does not include any fees paid, as these are accounted for in the cost base.

Where shown, market prices are determined using the average market value at the time of the acquisition/disposal unless the price is otherwise provided by the trading platform (or is manually overridden). All dates and times are in the "America/New_York" timezone.
