COMPANY OVERVIEW

VISION

Envision Energy is a 100% Indigenous-owned and operated electrical company dedicated to 'Providing Power to the Community' with a focus on social impact for First Nations communities. Specialising in Renewable Energy, we offer a wide range of services including the Design and Installation of PV Solar Systems, Battery Storage Systems, Off-Grid Solar, EV Charging, Network Metering and Electrical Installation and Maintenance.

MISSION

Our mission, is “Providing Power to the Community”. We aim to lead in renewable energy, ensuring that even remote communities always have reliable power. We provide comprehensive electrical and solar solutions that make life better for our customers. We are dedicated to providing a pathway for Indigenous youth, empowering them to build a better future through opportunities in the energy sector.

LETTER FROM THE DIRECTOR

**CHRAE
TAWHAI**

Director

As I reflect on my journey, I realise how the unfolding chapters of my career have led me to where I am today—the proud owner and director of Envision Energy. My company is a testament to what can be achieved when one marries passion with purpose. At Envision Energy, we're not just a business; we're a movement committed to 'Providing Power to the Community.' Operating with pride as a 100% owned and operated First Nations company, our expertise spans across Southeast Queensland and Northern New South Wales.

Our operations at Envision Energy are diverse, yet they converge onto a singular path—sustainability. We specialize in an array of services:

- **Design and Installation of PV Solar Systems:** Harnessing the sun's boundless energy to empower businesses and homes alike.
- **Battery Storage Systems:** Offering resilience by storing renewable energy for later use, ensuring that your operations never miss a beat.
- **Off Grid Solar Solutions:** Bridging the gap where traditional power infrastructure may falter, affirming autonomy over energy needs.
- **EV Charging Infrastructure:** Preparing organisations for the future of transportation, one electric vehicle at a time.
- **Electrical Installation and Maintenance:** Laying down the backbone for a robust and safe electrical system that stands the test of time.
- **Network Metering:** Providing a digital foundation for a modern electricity grid and play a vital part in facilitating the efficient integration of Consumer Energy Resource

“Renewable energy isn't merely a choice; it's a legacy we leave on Country.”

It's about lifting the financial burden of energy costs and carving employment pathways on terrain that thrums with potential.

WHY CHOOSE ENVISION ENERGY?

* EXPERTS IN RENEWABLE ENERGY:

Our dedicated focus on sustainable solutions ensures your energy systems are efficient and environmentally friendly.

* QUALIFIED PROFESSIONALS:

With an Electrical Contractors License, SAA Accredited PV Design, Install License and more, our team is highly qualified.

* COMMUNITY FOCUSED:

As a local leader in energy solutions, we're committed to the communities of Southeast Queensland and Northern NSW.

* INNOVATIVE SOLUTIONS:

We specialise in the latest solar and off-grid technologies to meet diverse energy needs.

* COST-EFFECTIVE:

Our efficient management and streamlined operations allow us to offer competitive pricing without compromising quality.

QUALIFICATIONS AND COMPETENCIES

Electrical Contractors License

White Card

Blue Card

First Aid, LV/CPR Rescue

Network Metering Certificate

SAA Accredited PV Design and Install License with Battery Storage and Stand Alone Power System Endorsement

IMPACT

A trade can play a transformative role in the life of a young First Nations person by providing them with valuable skills, financial independence, and a sense of purpose. At Envision Energy, we are passionate about offering apprenticeships to Indigenous youth, empowering them to build a brighter future. By partnering with Envision Energy, businesses are not only investing in high-quality renewable energy solutions but also supporting our mission to uplift First Nations communities. Your collaboration helps us achieve our goals of social impact, economic growth, and sustainable development for Indigenous Australians.

GOAL

The ultimate goal of Envision Energy is to assist communities in saving on power bills, allowing them to allocate savings to health or education. We aim to achieve this through 'On' or 'Off' grid systems with energy-efficient electrical fittings and services. We are seeking partnerships to support and grow our business, expand our fleet, and acquire the necessary equipment to take on larger contracts and travel to remote and regional communities. Additionally, we are passionate about offering apprenticeships to Indigenous and non Indigenous youth, providing them with brighter futures, just as I was given the opportunity in my youth. Connecting with the right people to help achieve this goal would be immensely beneficial.

EMPOWERING COMMUNITIES: OUR COMPLETED PROJECTS

RESIDENTIAL & COMMERCIAL PV SOLAR SYSTEMS

1500+ Successful PV Solar System
Installations Across QLD and NSW

QUEENSLAND EYE INSTITUTE

63.84kw PV Solar System Installation
for the Queensland Eye Institution in
the Heart of Brisbane City

BUNNINGS WAREHOUSE

LED Lighting Upgrades for Bunnings
Warehouse Oxenford. Providing
Energy Efficient Lighting Solutions

RESIDENTIAL & COMMERCIAL NETWORK METERING

4000+ Smart Network Metering
Installations across QLD
