Integrations Workshop

OVERVIEW

The Integrations course is a 2-session expert-led course that introduces students to Nextworld's integration tools and solutions. This course is designed to provide an understanding of current integration functionality, both in and out of Nextworld as well as the supported integration options.

WHO SHOULD ATTEND?

The audience for the Integrations training is partners who will be implementing Nextworld software where integration configuration is required. Resellers and Core Project Team members may attend depending on their specific areas of focus.

Attendees should have skills in:
- ERP Implementations
- Basic Integration Knowledge

COURSE OBJECTIVES

By the end of this course, participants will understand:
- Overview of Integrations in Nextworld
- Current Landscape & Patterns
- Overview Packaged Integrations
- REST APIs
- Invoking External REST APIs
